Announcement Made as to Presence of Governor and Mrs. Kerner and Other Distinguished Guests.

Honorable Richard J. Daley, Mayor, thereupon called the Council's attention to the presence of Governor and Mrs. Otto Kerner, and other distinguished guests who were in attendance at the meeting.

After Mrs. Kerner and other guests had bowed in acknowledgment of the introductions, Honorable Richard J. Daley, Mayor, requested Governor Kerner to address the Council.

In his remarks to the City Council Governor Kerner recalled his first presence at an inaugural meeting when his father, the late Otto Kerner, was inaugurated as Alderman of the old Twelfth Ward in 1913. He compared the striking changes that had occurred in Chicago in the interval, noting that in transportation the mode of travel had progressed from street and elevated cars, and a few automobiles, to the rapid transit of the C.T.A., countless personal automobiles, and the amazing network of the superhighways. In industry, commerce and especially in architecture the face of Chicago had changed to an amazing degree. He congratulated the Mayor on his election to a third term and the people of Chicago on their choice of a dynamic leader and extended his best wishes for success of the many great plans he has in mind for Chicago's future development.

Honorable Richard J. Daley, thereupon presented Mrs. Richard J. Daley and his daughters, Patricia, Mary Carol and Eleanor, and his sons, Richard, Michael, John and William, who were warmly applauded as they rose to acknowledge the introductions.

Inaugural Address of Honorable Richard J. Daley, Mayor.

Honorable Richard J. Daley, Mayor, thereupon made the following address to the City Council, which was, on motion of Alderman Keane, ordered published in the Journal:

The objectives, the policies, the goal of this administration are a matter of public record. In my Inaugural Address in 1955 I said, "We must take first things first, we must concentrate our efforts on city services which are essential to keep the people of Chicago the healthiest, best protected and most prosperous in the nation.

"We want the finest police and fire departments in the nation. We can't be satisfied with a school system in which 14,000 students must attend double-shift schools and where classes are overcrowded and school buildings are old and dangerous.

"We must provide the opportunity for every citizen to have decent housing. We must have slum clearance. While we are clearing the slums we must prevent the spread of blight into other neighborhoods.

I said then: "Community betterment programs will also include cleaner and safer streets, extension of sewers, the expansion of street lighting, and a bigger street cleaning department and a realistic human relations program. More recreation facilities are needed in the neighborhoods, more playgrounds and parks.

"There is no dispute among us that we need more police and a better police department; that we need more schools and more teachers; that government should be continuously streamlined and modernized; that there must be something done to improve our transportation system.

"There are great projects underway, slum clearance, new housing, school buildings, superhighways, street-lighting projects, neighborhood redevelopment, off-street parking in neighborhood communities, and many other improvements, I shall not only support these projects, I shall speed them vigorously and with energy. I will permit nothing to stand in the way of Chicago's growing civic consciousness and civic integrity."

This was my platform, my pledges in 1955 when I first took office.

During the past eight years I have endeavored to fulfill those pledges and for me there can be no greater reward than the vote of confidence expressed by the people at the polls on April 2nd.

Tonight, as we continue our task of carrying out the mandate given by the citizens of Chicago, I find it difficult to express my mingled feelings of challenge and confidence, of pride and humility.

I have lived in one neighborhood of Chicago all my life. The desires of my neighbors for a community which will enable them to give their families the best possible environment, is shared by all the residents of the neighborhoods of Chicago. Their needs and their wants have been and will continue to be my guide in the four years to come.

Police, fire, health, sanitation, building, education, and recreation are the every-day responsibilities of local government. The program, the new plans, that any municipality can carry forward are dependent on the high standards of these vital services and the effective performance of city departments in providing them to city residents.

These are the mainsprings of local government and the continual improvement of these services will by themselves cause an improvement in all services and stimulate and make possible the success of new programs and new plans. In programming for the next four years and in planning for the future, we must first appraise the quality and performance of essential services, the programs which are under way and the steps which must be taken to further improve them.

Your Chicago today has a police force which is rapidly becoming a truly professional police department. Since he has taken command, Superintendent O. W. Wilson has created a new image of the police department. The department enjoys the public respect and the public confidence. In the past seven years the appropriations for the Chicago Police Department have increased by $36-million dollars, of which more than $15-million was appropriated in the past two years. The Chicago Police Department now has the most modern communications system in the nation.

The record is clear that the police department is run without interference by outside influences, and it will continue to be completely administered by the Chicago Police Board and the Superintendent of Police.

The police department will increase its emphasis on patrol and crime prevention activities, with more foot patrolmen and squad cars assigned to areas of high crime incidence. More personnel will be assigned to the task force under-cover unit and to the canine section, which has proven to be a highly successful crime prevention operation.

Continued efforts will be made in the coming year to replace sworn personnel with civilians so that more police personnel can take part in crime prevention and crime fighting activities.

The 1963 budget provides $100 annual clothing allowance for all uniformed personnel and $50 annual uniform allowance for crossing guards.

Bringing the police force up to its present high professional standard has been costly. It will no longer be necessary to add 4000 policemen, which we have done since 1956. Their salaries amount to approximately $26-million dollars a year. It will not be necessary to provide for a communications system, the remodeling of police headquarters, and the new equipment that was urgently needed. It is generally agreed that in the future the compensation of our police and fire departments should be increased.

Your Chicago today has a fire department that is the most completely equipped fire-fighting force in the world. With the new fire academy, adequate manpower, new stations, new equipment, snorkels, the fire department has made a record of reducing extra-alarm fires, while in other cities extra-alarm fires have increased. How many cities in the nation have emergency ambulance service within two to three minutes of every one of its residents?

As in the police department, bringing the fire department up to its high standards has been costly. It will not be necessary in the future to add nearly 1000 firemen at an annual compensation of nearly $6,500,000, nor to provide for expensive equipment, and the construction of a new fire Academy. In the months ahead, the fire department will carry on its building program of relocating and consolidating apparatus from single fire stations into multiple fire stations, reducing both operating and maintenance costs.

With the facilities of the new fire academy available, the department is able to give a much finer course of training to probationary firemen.

As in the police and fire departments, all of the city departments have been greatly improved.

Today, the Chicago Board of Health's leadership in preventive medicine is recognized throughout the world. Its programs of dental treatment, immunization, and inspection have been greatly increased. It is a pioneer in launching a chronic disease health program in such vital areas as heart, cancer, diabetes, and mental health. The City of Chicago is the only city in the state which gives physical examinations in our public and Parochial schools to protect the health of medically indigent children.

It has expanded its services of quarantine inspection at both the Port of Chicago and O'Hare Field. The City's first District Health Center will be opened in Garfield Park in early June. It will provide a comprehensive health service directly to the community and will include pre-natal care, well-baby clinic, mental health program, dental health, chronic disease control program, and health education. In the future, we hope to provide for more of these Health Centers which work in full cooperation with the Medical Society and the local hospitals.

Chicago, which was once thought of as "A Dirty City", has won first awards in the national contest

in Washington for being the Cleanest Big City in the United States in 1959, in 1961 and again in 1962.

Actually, nothing is more important to civic pride and in creating an atmosphere in whcih the citizens will seek to maintain and improve their property than clean streets and alleys. It is not an easy task to keep a city of this size clean.

Making our big city clean and attractive has cost money, but it has been well worth it. The Government alone could not have achieved the goal of a much cleaner city. It has been only through the cooperation of industry, commerce, labor, churches, civic groups, all of our media of communications, and above all, the people of Chicago who gave this program their whole-hearted support.

The goal of a clean and beautiful city is a never-ending task, and we will continue not only to maintain but to expand this program.

The Building Department has been expanded and most modern techniques are being continually adopted to insure that the codes are strictly followed. Owners of property now are voluntarily repairing and rehabilitating their buildings rather than waiting to be taken into court.

One of the most effective programs that has been carried on by the Building and Law Departments is the demolition and vacation of dangerous and hazardous buildings which have long been eyesores in the community.

The inspection activities of the Building Department are vitally important, but not only in terms of enforcement. This administration believes that the Building Department is essentially a service department that can aid and assist property owners in protection and increasing the value of their property. The Building Department will continue its program of demolishing hazardous and dangerous buildings from the neighborhoods of Chicago.

These five departments: Police, Fire, Health, Sanitation and Buildings, account for 75-percent of the total operating fund of the city. Eighty percent of all of the increases in the budget since 1955 have gone to improve these essential services.

In the 1963 Budget, the total appropriation for the city's operating and capital improvement expenditures was reduced by more than $40-million. The 1963 property taxes for the operation of the city's departments was reduced by more than $7-million. The most substantial reduction in the city's tax levy for more than half a century. This reduction will be effective next year.

The appropriations for virtually all City Departments were reduced, but in no instance will there be a curtailment of their basic services.

The lightening of the tax burden for property owners, especially for the small home owners, was accomplished without diminishing the quality of vital city services. Services which are being maintained at standards which are the highest in the city's history. These reductions were made possible by stringent economies in all operations involving contracts, personnel, commodities, equipment, and by improved supervision.

With few exceptions all of the Home Rule recommendations have been adopted. Also put into effect were: The Executive Performance Budget, The Classification and Compensation Plan. The consolidation of functions of The Chicago Park District and the City Police, the consolidation of the Land Clearance Commission and the Community Conservation Board into the Department of Urban Renewal, the creation of the Departments of Aviation and the Port of Chicago, the program of coordinated Capital Improvement Budgeting, and the microfilming of records in all departments. These have all contributed to greater efficiency and superior service.

Nearly every department in the city has had surveys by expert municipal consultants, the consolidation of functions, the elimination of paper work, and the introduction of electronic office machinery. In some departments there were non-recurring costs. The modernization of equipment and the remodeling of offices has been virtually completed.

We can look forward to further benefits of this modernization program. We shall continue this program of efficiency and economy, to utilize the most modern business techniques, to streamline procedures, cut red tape, reduce over-lapping by consolidating functions and agencies wherever possible, and employ the best talent in the field. We shall continue to utilize outstanding consultants.

The objective is to continue to give the taxpayer the greatest value for his dollar.

In 1952, under a previous administration, the Mayor's Commission on Revenue, which was not a political commission in any way, analyzed the needs of Chicago. Three years later, when I assumed office, I followed the recommendations of the Commission.

Last January I appointed a Citizens Committee on City Revenue and Expenditures. The purpose of the committee was to study the proposition to place limitations on the real estate tax levy and to study alternative proposals in relation to revenue resources and city expenditures.

The committee will present its recommendations shortly, and we will then present to the City Council a special message on taxes and revenue.

Our agencies dealing directly with the welfare of people have all been pioneers in new programs.

The Human Relations Commission has made great strides in developing better understanding among all our people in recent years. The Commission has not only had great success in preventing racial stress but has also made great progress in increasing employment opportunities.

Our other commissions, Senior Citizens, Youth Welfare, newcomers, and the Alcoholic Treatment Center, are making steady progress in their fields, all of these activities contribute to the well-being of our people.

Because of the unavoidable neglect which had caused an accumulation of urgent needs, this administration established a policy of expediting all of its Public Works programs so as to bring the benefits of new facilities to the citizens as quickly as possible.

To determine the city's needs and the needs of the many suburbs to which the city supplies water, we requested a survey to formulate plans for the next 25 years.

A few weeks ago, the Southwest Pumping Station was in full operation, and within a few months the largest filtration plant in the world will supply filtered water to millions of people residing on the central and north sides of the city and to 19 suburbs.

The Public Works improvements during the past eight years are evident everywhere. Included in this area of activity has been the construction of numerous new playlots and playgrounds, new sewers, new water mains, pumping stations, new filtration plant, bridges and viaducts, police and fire

stations, new parks, beaches, and swimming pools, House of Correction improvements, fifty miles of Expressways to give this city the finest Expressway system of its kind in the country.

Chicago is the best-lighted city in the United States. We have rebuilt Navy Pier as a modern port. O'Hare Field is the busiest and more modern in the nation, without cost to the taxpayer.

The City of Chicago has carried on this tremendous public works and community improvement program while at the same time it has improved its national credit rating, which will result in the saving of hundreds of thousands of dollars to taxpayers. Chicago's over-all per capita debt is the fourth lowest of the nation's forty-two largest cities.

The city has under way 27 community improvement projects under the direction of the Department of Urban Renewal. Six projects have been completed. The total assessed value of these six projects after redevelopment has increased so that they produce a tax yield that is 147-percent higher than before development.

For all 27 redevelopment projects, which include construction for educational, medical, and other non-taxpaying institutions, the annual tax yield is expected to more than double. These community improvement programs, working with the Building and Law Departments, are leading the way to the goal of eliminating blighted and dilapidated buildings from every neighborhood in the City of Chicago.

The United States Bureau of Census of Housing reported that in the period between 1950 and 1960 the number of dilapidated dwellings in Chicago was reduced by more than 50 percent, from 64,000 to 30,000. In the past two years the number of such dwellings has been further reduced by 5000 to 6000.

The fundamental principle behind all of our planning for community improvement is that there will be no program undertaken until the residents of the community have had every opportunity to participate in hearings and discussions, and to make their contributions to the plans for their neighborhoods.

Chicago's Housing Program for the Aged is serving as a model for the nation. Our senior citizens are being given an opportunity to live in housing they can afford, in their own communities where they will continue to maintain their ties with their relatives, neighbors and churches.

The Department of Planning is developing the comprehensive general plan.

The position of the City of Chicago today is far different than it was in 1955. Then we were faced with the urgent program maintenance and inadequate revenues. Every property owner, every businessman, knows that if he permits his property or his plant to run down for many years the job of bringing it back is far more costly and difficult than if maintenance and service is kept on a day by day basis.

The city now has for most part brought its plant and its services to standards that are able to meet the present day needs of its citizens.

It has been making up this deferred maintenance which has made necessary substantial expenditures and increased taxes.

We are now on the threshold of making progress with much greater speed because we have the tools and the climate in which to do so.

It is to the credit of the members of the City Council and the people of Chicago that our city now is considered to have one of the finest administrative governments in the nation. We can now re-evaluate our program for the future from this new position of strength, rather than of weakness.

It must be understood that urban renewal are words that cover nearly all of the activities of government, for urban renewal is just one way of saying community improvement.

We are now in the position where we can properly re-evaluate the rebuilding of our communities taking under specific consideration:

Expanding and improving communication with the public and giving greater participation and a broader comprehension in what local government is doing to improve its neighborhoods, and reappraising what resources we have to finance a community improvement program which means much to all the people of Chicago. The need for re-examination of our program is not because we have not made substantial progress but because we feel that under the new Chicago we can make much greater progress.

A community improvement program must include better schools, libraries, beaches, and playgrounds.

We will continue our policy of non-interference with the Board of Education, but we will continue to join in every effort of giving all the young people of Chicago the finest educational opportunities.

All of us can take pride that Chicago is one of the few big cities in the nation where not a single student is on a double-shift in the public schools.

In 1965, a new branch of the University of Illinois will give unequalled opportunity to our young people in Chicago and in the surrounding area.

This administration and the people of Chicago will work hand in hand with University officials and the faculty to make this Urban University, a positive influence in serving the economic, the social and cultural life of our city.

As Mayor, I have felt that one of my great responsibilities was to present a true picture of our city, and to erase the unreal notion that many people had of Chicago and its people. Throughout the past eight years, Chicago has been visited by the highest representatives of nearly every nation. We have had many events that have drawn world wide attention to the beauty, the greatness, of our city and the warmth and friendliness of our people. Chicago now is a magnet for visitors from all over the world.

Work to completely upgrade the Outer Drive will begin this year with the construction of the grade separation to eliminate the bottleneck at Oak Street. The entire Drive will be repaved. Similar work will start at 57th Street and the Outer Drive repaved on the South side.

It is not our intention to make it a superhighway. The Lake Front drives are a showplace of the world and this administration will keep it that way. It will be my firm policy to reject any attempt to commercialize or to build any structure along the Lake Front unless it is directly concerned with public recreation or culture. We will do everything possible to further the enjoyment of this front yard of Chicago for its citizens with more landscaping, gardens, and additional recreational facilities.

In 1955 approximately 22,000 tons were handled at Navy Pier. Last year an all time high for import-export traffic of general merchandise was established with more than 257,000 tons. Approximately 22 dollars is added to the city's economy from each ton crossing the docks. Thus the nine million dollars

invested in the port improvement is being returned to the economy and will be returned several times over in the future. We will intensify our efforts to promote the Chicago Port and expand this trade. At Lake Calumet the city has one of the most modern ports in the world. We know that its full potential has yet to be realized. The completion of the Cal-Sag Project in 1965 will have a greater impact to Chicago than the opening of the Saint Lawrence Seaway. We will give all of our support and assistance to the growth of this great harbor.

Our goal is to open the Southwest Expressway in 1964. Studies are being made for a North-South Expressway near Cicero Avenue. In planning for new Expressways we must be extremely careful that we do not adversely affect any of our fine neighborhoods. Our transportation program will provide a balanced and coordinated transportation network which includes Expressways, major and preferential streets and mass transportation.

Again, looking into the future, there is a definite need for a Cultural Center and Central Sports Stadium convenient for all our residents. Studies are underway concerning these proposals.

The objective of our transportation program is not just to move vehicles but to move the greatest number of people safely and conveniently. This of necessity must involve the expansion and improvement of the mass transportation system. The utilization of the median strips in the Northwest Expressway and the Dan Ryan Expressway would provide a direct service to our neighborhoods and relieve congestion from the Expressways and arterial streets. It would be a great improvement to tear down the El structure around our Loop and extend the Wells Street subway.

Extending the State Street subway south of 19th Street, down Archer Avenue, to connect with the Dan Ryan Expressway would provide mass transportation for many thousands. However, the CTA cannot expand and improve its service from its own revenues. It must have the combined financial assistance of the Federal, State, County and City Governments.

Chicago has less unemployment than most big cities. However, there must be increased emphasis upon expanding job opportunities.

Essential cooperative programs between Universities and business have been formulated which will draw the proper attention to Chicago as a Research and Developement Center. Positive assistance to business and labor to bring more contracts to Chicago and to make known the industrial capabilities of the many excellent companies and union in Chicago are being pursued.

In the area of Youth Welfare, Chicago has made important gains. But we must not be blind to the fact that we still confront serious problems. The problems of the out-of-school, out-of-work youth are serious.

One of the most crucial questions in the coming years will be youth employment opportunities. The greater proportion of the expansion in the labor force in the next ten years will be in young persons under twenty-four years of age. More and more of Chicago's youth will be entering the labor force during the next four years and job opportunities and proper training must be provided for these youths.

We cannot permit the lack of opportunity to handicap the next generation. In the year ahead, we will carry out a vigorous program consisting of:

1. A maximum effort to attract to Chicago expanding industries.

2. A canvass of every industrial and business complex in Chicago and its environs for full and part-time work opportunities for youth.

3. We will take advantage of every federal and state resource for improving the skills of young people in order to make our youth eligible for employment opportunities.

4. We will support and give assistance to every neighborhood-centered program for counseling and helping youth to fit into the world of work.

Closely related to the problem of youth employment is the problem of the school drop-out. We support the tremendous effort of the Board of Education to expand counseling and guidance services, their efforts to develop more vocational education programs geared to the work opportunities in the City of Chicago, the elimination of double-shifts for school children, the expansion and development of the Junior College program.

This year, the Commission on Youth Welfare, in cooperation with community groups and committees, is working with the schools to meet with every youth who is considering dropping out of school.

In the general area of youth welfare, we will continue community campaigns to build respect among youth for high standards of law and order, to control the availability of alcohol to youth, to eliminate the environmental hazards to the health and the welfare of children, to expand the child health program and improve the control of the diseases that particularly affect children, to eliminate discrimination, and to equalize opportunity.

These are goals which can be achieved only through a partnership between agencies and organizations of government and local community effort, including churches, schools, youth organizations and civic groups. This partnership is already working, and it will be expanded.

Our administration worked hard to bring about the consolidation of the railway terminals. This improvement, which will put precious land to its best use and provide free circulation to the south side, must be carried out. We are continuing to meet with the railroad presidents and will intensify our efforts to bring about this civic improvement.

In 1965, the new Civic Center and courthouse will be ready. It will make a genuine contribution to the better administration of justice, to providing needed space for government office, and will bring to our central area a plaza and a modern building which will add to the attractiveness of that area.

One of the basic problems that faces Chicago and most metropolitan cities is the lack of equitable representation of the urban population in the state legislature. The people of our city, the residents of the entire metropolitan area, must insist that the laws which directly affect them are prepared and deliberated upon by representatives who understand their needs and their problems. It is not a question of political parties. It is basically a question of true representation for the greater majority of the people who live in the State of Illinois.

This does not mean that any one county or any one area should dominate our General Assembly, but it does mean that our urban population should have proper and fair treatment in determining their own destiny.

For all of us who are in city government, my running mates, City Clerk John C. Marcin; City Treasurer, William G. Milota; the members of the City Council, the heads of departments, city employees in all branches and agencies, this is a night of solemn rededication to the duties we are delegated to perform.

Uppermost in our minds is not the feeling of triumph nor of self-glorification, but rather the sense of gratitude and the devout wish to prove worthy of tremendous responsibility to our beloved Chicago.

I was elected on April 2 as a Democrat. I am proud that I had the support of my party. As in my previous terms as Mayor, I will serve all of the people of this city, Republicans, Independents, and Democrats alike. I am especially proud of the strong and indispensable support that was given to me by the many thousands of citizens, responding to Non-Partisan appeals, who put progress ahead of Partisan considerations. As I have frequently said, I have tried always to conduct my public life in accordance with the principles that good government is good politics, and good politics is good government.

To the members of the City Council who have been re-elected, I extend my heartiest congratulations and my very deep appreciation of the fine cooperation my administration has had from them. To the newly elected members go equally hearty congratulations. I assure these men that they will have from me every consideration and assistance I can give. I am confident we can all work together, with diligence and with integrity, to make an even greater Chicago.

I would like to express my appreciation to all of the media of communications, the metropolitan press, the community press, the radio and TV stations, civic organizations, the clergy, labor organizations, all who have a part in shaping public sentiment, all who are truly concerned with promoting the physical, material, social and spiritual welfare of the millions of people, of every race, creed and color, who live and work and worship here in harmony.

Always we have to bear in mind that in Chicago, great among the greatest of industrial. commercial and cultural centers of the world, the greatest resource of all is the people themselves. It is from the people that our proud spirit of "I Will" springs. It is with the people that this spirit resides, spurring all of us to greater effort, impelling us to live up to the heritage we have from those who have gone before us.

There is no greater honor to me than to serve the people of Chicago as their Mayor. This is the city of my birth, this is the city of my upbringing and all that I am I owe to my mother and father, to my good wife and family, to my teachers and to my good neighbors and friends.

The goal of the metropolis is to offer to its citizens the widest possible variety of choice in all aspects of living and working, providing the greatest variety in choice of jobs, and the maximum variety of educational and cultural opportunities.

It is the destiny of Chicago to be a great metropolis.

With your cooperation and with the cooperation of the people of Chicago, and with God's help, we shall not fail.

Tribute Paid to Late Virgil E. Gunlock.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, News of the death of Virgil E. Gunlock, Chairman of the Chicago Transit Authority, on March 21, 1963, came as a shock and a matter of deep concern to the Mayor and the City Council of Chicago; and

WHEREAS, The service which Virgil Gunlock rendered to Chicago during thirty-five years of brilliant and outstanding public service, is immeasurable. His appointment in 1954 to the board of the Chicago Transit Authority and his immediate election to its chairmanship climaxed his notable career as a public works administrator. His experience in his chosen field was comprehensive and well founded. He held a Bachelor of Science degree in civil engineering, served for more than ten years as an engineer with the Chicago Sanitary District, was resident engineer on Chicago's first subway contract in 1938, became chief subway engineer, served as commissioner of subways and superhighways, and later as commissioner of public works until his appointment in 1954 to the Chicago Transit Authority. He was an outstanding member of the Chicago Plan Commission.

His was the responsibility of directing the operations of the City's mass transportation system, and of supervising such major projects as the construction of Chicago's two subways, our comprehensive system of expressways, development of O'Hare International Airport, sewage treatment and water filtration systems and other major public improvements, conceived and carried to completion with characteristic imagination and vision aimed far into the future. All of these will stand as monuments to his memory and lasting evidence of his devotion to Chicago, the City which he loved; now, therefore,

Be It Resolved, That in the death of Virgil E. Gunlock, Chicago has lost a beloved and valued official whose dedication to Chicago and her future brought progress and recognition of superiority to her people; that the Mayor and the City Council hereby acknowledge their sense of gratitude and appreciation for his vast contribution to Chicago's very life and express to the members of his family deep sympathy in their loss.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Keane (seconded by Aldermen Bohling, Sheridan, Corcoran and Hoellen), said proposed resolution was *Adopted,* unanimously, by a rising vote.

Tribute Paid to Late Joseph J. Cavanagh.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, Joseph J. Cavanagh, president of the Chicago Motor Club, died on March 27, 1963; and

WHEREAS, Mr. Cavanagh, a native Chicagoan who never held public office, was active in civic affairs for many years. He vigorously pursued many campaigns aimed at benefiting motorists; he took an active part in the matter of application of tax revenues derived from motorists; he was an early backer of express highways; and the Chicago Area Transportation Study was born of his pointing up of the need for a comprehensive survey of Chicago's growing traffic problems. He was on the board of the National Safety Council, a member of the Chicago Plan Commission, the Chicago Home Rule Commission, and the Chicago Committee on City-owned Parking Garages.

For his work in behalf of his church, he was named a Knight of St. Gregory in 1953, by Pope Pius XII. Chicago has lost an outstanding member of its community; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago hereby express their regret on the passing of Joseph J. Cavanagh and express their sincere sympathy to the members of his bereaved family.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Keane (seconded by Alderman Bohling), said proposed resolution was *Adopted,* unanimously, by a rising vote.

Tribute Paid to Late Joseph R. Lee.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, The Mayor and the members of this Council were saddened by news of the death of Joseph R. Lee on April 13, 1963; and

WHEREAS, Joseph Lee was associated with the States Attorney's office for sixteen years, he served as a member of the Civil Service Commission of Cook County, he engaged in the private practice of law in Chicago for many years. During all his too-short career the warmth of his personality, his devotion to friends and family, his readiness to lend a helping hand in small things as well as in more serious problems, won for him a place in the

affections of those with whom he was associated; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago hereby express their sadness on the death of Joseph R. Lee, and extend to his family their sincere sympathy in their loss.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Keane (seconded by Aldermen Condon and J. P. Burke), said proposed resolution was *Adopted,* unanimously, by a rising vote.

Tribute Paid to Late Judge Julius H. Miner.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, On March 14, 1963 the Honorable Julius H. Miner, Judge of the United States District Court for the Northern District of Illinois, Eastern Division, died at height of his career; and

WHEREAS, Judge Miner rose to distinction by his own efforts. He came of a poor family but his initiative, his energy, his ambition, and his innate ability carried him forward to his appointment in 1958 to the federal bench. For sixteen years he had served as a master in chancery; in 1940 he was elected to the Circuit Court of Cook County; he served as Chief Justice of the Circuit Court in both the civil and criminal divisions. He was respected for his sympathetic understanding of people and their problems, his courage in discarding tradition where innovation better served the purposes of justice, and his ability to expedite such purposes. His loss is significant and will be broadly felt; now, therefore,

Tribute Paid to Late Judge William J. Tuohy.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council, presented the following proposed resolution:

WHEREAS, The Mayor and the City Council of the City of Chicago were shocked and saddened by the sudden death of Judge William J. Tuohy on March 5, 1963; and

WHEREAS, Judge Tuohy's stature as a judge, a student of the law, a man of practical wisdom, an expert in the field of legal structure in government, a simple and unassuming man who accepted responsibilities with dignity and performed his tasks with distinction, placed him high in the esteem of the bench and the bar. He served as States Attorney from 1944 to 1948—from 1950 until his death he was a Judge of the Circuit Court of Cook County. His death is a great loss to his profession and to the people whom he so ably served; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago, by this Resolution spread upon the Record of the Proceedings of the City Council, hereby express their regret on the death of Judge William J. Tuohy, and extend to the members of his family their sincere and heartfelt sympathy.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Keane (seconded by Aldermen Condon, J. P. Burke and Wigoda), said proposed resolution was *Adopted,* unanimously, by a rising vote.

A. ITEMS INCLUDED IN THIS REVISION TO THE REDEVELOPMENT PLAN.

Revision No. 2 to the Redevelopment Plan for the Chicago Land Clearance Commission Project Harrison-Halsted consists of the following items, all of which are dated March 16, 1962, except as noted:

1. This Narrative Statement;
2. Land Use Plan;
3. Land Use Controls;
4. Boundary Map, dated March 24, 1961.

B. PROJECT BOUNDARIES.

This project is bounded by Harrison Street on the north, the south route of the Expressway on the east, Arthington Street on the south, Blue Island Avenue on the southwest, and on the west by the north-south alley one-half block west of Morgan Street, between Taylor Street and Vernon Park Place, and by Miller Street between Vernon Park Place and Harrison Street. The precise boundaries are shown on the "Boundary Map" attached to this statement. A legal description is also attached to this statement.

C. APPROVAL OF PROJECT BY THE CITY COUNCIL AND THE ILLINOIS STATE HOUSING BOARD AND ELIGIBILITY OF THE PROJECT FOR FEDERAL AID.

On September 25, 1956, the Chicago Land Clearance Commission by Resolution No. 56-CLCC-113 designated the area as a slum and blighted area redevelopment project. The City Council ordinance and the Illinois State Housing Board resolution approving designation by the Commission of Project Harrison-Halsted were adopted October 17, 1956 and December 7, 1956 respectively.

On January 16, 1958, the Chicago Land Clearance Commission by Resolution No. 58-CLCC-6 approved a redevelopment plan dated January 10, 1958. The City Council ordinance and the Illinois State Housing Board resolution approving that redevelopment plan were adopted January 23, 1958 and February 21, 1958 respectively.

On March 29, 1961, the Chicago Land Clearance Commission by Resolution No. 61-CLCC-69 approved Revision No. 1 to the Redevelopment Plan dated March 28, 1961. The City Council ordinance and the Illinois State Housing Board resolution approving Revision No. 1 were adopted May 10, 1961 and August 8, 1961 respectively.

The Housing and Home Finance Agency of the Federal Government acting under the terms of the Federal Housing Act of 1949, as amended, has determined that the project is eligible for Federal financial assistance.

D. LAND USE PLAN.

1. General.

As shown on the Land Use Plan attached to this narrative statement, the land in Project Harrison-Halsted is to be used for the following purposes: the Chicago Campus of the University of Illinois; a site for residential structures; a site for residential and/or institutional structures; and an electric substation owned by the Commonwealth Edison Company provided that property conforms to the Redevelopment Plan. In determining conformance to the Redevelopment Plan, the Commission will require among other things that that facility comply with the applicable codes and ordinances of the City of Chicago, and be standard in all respects.

The approximate amounts of land to be devoted to the several uses are shown in the following tabulation:

Land Use	Approximate Area in Acres	Percent
Gross	55.5	100.0
Streets and alleys	8.4	15.1
Net Area	47.1	84.9
Net Area	47.1	100.0
Chicago Campus of the University of Illinois	43.4	92.1
Residential	2.2	4.7
Residential and/or Institutional	.8	1.7
Electric Sub-station	.7	1.5

2. Changes in Major Rights of Way.

The Halsted Street right of way is to be widened from 66 feet to 130 feet. That right of way will allow two pavements for one-way traffic separated by a median strip, together with an access drive to serve the land west of Halsted Street.

Blue Island is to be vacated within the project.

E. CONTROLS ON REDEVELOPMENT.

1. Land to be used for the Chicago Campus of the University of Illinois, residential, and residential and/or institutional purposes.

The controls applicable to such land are shown on the attached table entitled: "Land Use Controls".

2. Controls on land to be used for the electric sub-station.

The use of the land specified as a site for an electric sub-station is to be limited to that purpose. Building height is limited to 40 feet, and there must be automobile parking facilities adequate to provide 1 space for each 4 employees on duty during the peak eight-hour work period.

3. Controls on all Redevelopers.

The respective owners of, and other parties interested in any property within the project site not acquired by the Commission will be required to covenant with the Commission, by means of a written agreement to restrict said respective properties to the particular uses set forth in the approved Redevelopment Plan. The Restrictive Agreement will provide that said covenants shall run with the land for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. These covenants and agreements shall be enforceable by the parties thereto, and their successors in title and possession.

The redevelopers, their successors or assigns will be required by contract to observe all provisions of the Redevelopment Plan, including land use controls, for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area. Also, they will be required to submit a redevelopment progress schedule satisfactory to the Commission. It is anticipated that redevelopers will not be permitted to defer the start of construction after approval of sale of land by the Commission, the Chicago City Council, and the Illinois State Housing Board, for a longer period than required for the preparation of architectural plans and the submission of such plans to the Commission for the latter's determination as to conformance to the Redevelopment Plan. Generally, this work should be completed within six to nine months.

After any portion of land is sold to a developer, the Land Use Plan may be modified only upon the written consent of the then property owners directly affected by the proposed modification. The contract with the redevelopers will include prohibitions against land speculation.

To the Honorable, The City Council of the City of Chicago:

GENTLEMEN—I transmit herewith, for your consideration, proposed amendments to the Air Pollution Control Ordinance of the City of Chicago.

These amendments seek to accomplish the following objectives:

1. Provide a new definition of "smoke" to broaden the coverage to include all visible air pollutants, heretofore only carbonaceous materials was covered by the definition.

2. Eliminate the present four classifications of fuel burning and process equipment, and provide for only one class including all fuel burning and process equipment which must meet new smoke standards.

3. Provide a tighter standard of control which has become practicable because of recent developments in the technology of Air Pollution Control.

These provisions, if enacted, will materially assist the efforts of the City to reduce air pollution and effectively administer the Air Pollution Code.

EXHIBIT "B"

Requisition Agreement No. 4 (herein called "Requisition Agreement") relating to the time of a certain Project Temporary Loan payment to be made by the United States of America to the City of Chicago which payment will be evidenced by Project Temporary Loan Note No. 5.

Whereas, the City of Chicago (herein sometimes called the "Local Public Agency"), a public body corporate and politic duly organized and existing under the laws of State of Illinois, entered into a contract dated as of the 27th day of May, 1959, and numbered Contract No. Ill. R-1 (LG) (which, together with any supplements thereto or amendments, modifications, or waivers of any provisions thereof, is herein called the "Loan Contract"), with the United States of America (herein called the "Government") acting by and through the Housing and Home Finance Administrator, providing for a Project Temporary Loan by the Government to the Local Public Agency, under Title I of the Housing Act of 1949, as amended, in an amount outstanding at any one time not to exceed $32,709,891.00, to aid the Local Public Agency in its

undertaking and carrying out of a certain urban renewal project (herein called the "Project") designated Project No. Ill. R-1; and

Whereas, in accordance with the Loan Contract, the Local Public Agency has filed with the Government and the Government has approved a requisition (herein called the "Requisition") together with necessary supporting documents for a Project Temporary Loan payment thereunder in the amount of $12,948,000.00 (said payment in said amount being hereinafter called the "Requisitioned Payment"), and the Government is obligated to make the Requisitioned Payment as hereinafter provided; and

Whereas, the Local Public Agency is able to obtain a short-term loan from sources other than the Government in the amount of $12,480,000.00 at an interest cost less than the interest required to be paid under the Loan Contract on Project Temporary Loan funds which are made available by the Government, and thereby reduce carrying charges and other Project costs, and the Local Public Agency has determined to obtain such short-term loan from sources other than the Government (1) in order to refund or retire the Project Temporary Loan Note or Notes of the Local Public Agency, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes hereinafter described (which Project Temporary Loan Note or Notes so held are herein called "Old Project Temporary Loan Notes"); and (2) in anticipation of the Requisitioned Payment which the Government has become obligated to make by reason of the approval of the Requisition; and

Whereas, pursuant to said determination, the Local Public Agency on the 8th day of May, 1963, duly adopted an Ordinance entitled "Ordinance Authorizing the Sale, Issuance and Delivery of Preliminary Loan Notes in the Aggregate Principal Amount of $12,480,000.00, the Execution of Requisition Agreement No. 4, and the Execution and Delivery of Project Temporary Loan Note No. 5, in Connection with Project No. Ill. R-1," authorizing among other things of sale, issuance, and delivery of its Preliminary Loan Notes (Fourth Series A), herein called the "New Preliminary Loan Notes"; and

Whereas, the Government desires to cooperate with the Local Public Agency in its efforts to reduce the aforementioned costs, and desires to encourage participation of private capital in the cost of the Project; and

Whereas, the Local Public Agency has authorized and deposited with the Government its Project Temporary Loan Note No. 5 (herein called the "Escrow Project Temporary Loan Note") payable to the United States of America or order in the principal amount of the Requisitioned Payment, together with all necessary collateral documents, with directions to take delivery thereof upon compliance by the Government with the provisions of Paragraph 2 hereof; and the Government has approved the form and execution of the Escrow Project Temporary Loan Note and collateral documents, and has approved all of the proceedings authorizing the issuance of said Escrow Project Temporary Loan Note and the legality thereof when paid for in accordance with the terms of this Agreement, and has accepted deposit of said Escrow Project Temporary Loan Note pending its payment therefor as aforesaid:

Now, Therefore, This Agreement Witnesseth:

That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The Local Public Agency agrees that simultaneously with the payment for said New Preliminary Loan Notes by the purchaser or purchasers thereof (and using the proceeds of said New Preliminary Loan Notes, and other appropriate funds of the Local Public Agency to the extent necessary therefor) it will pay or cause to be paid to the Government an amount equal to the aggregate principal amount of the Old Project Temporary Loan Notes, if any, of the Local Public Agency held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and the Government agrees that simultaneously with said payment to the Government it will cause the Old Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, to be canceled and returned to the Local Public Agency.

2. The Local Public Agency hereby directs, and the Government agrees that without any further showing by the Local Public Agency of the necessity therefore, and irrespective of compliance by the Local Public Agency with the conditions in Paragraph 1 above, the Government will make payment of the Requisitioned Payment as follows, and in no other manner Said Requisitioned Payment will be made on the 14th day of May, 1964 (or, if the Government desires and the Local Public Agency consents thereto, at any time prior to said date), in the amounts set forth below, to the paying agents named in the New Preliminary Loan Notes for the account of the Local Public Agency, to be used to the extent necessary for the payment of the principal of and interest to maturity on said New Preliminary Loan Notes:

To Paying Agent for Preliminary Loan Notes Nos. 1 to 331, inclusive, Fourth Series A, $10,648,675.17; said Paying Agent being Continental Illinois National Bank and Trust Company of Chicago, at 231 South LaSalle Street, Chicago, Illinois;

To Paying Agent for Preliminary Loan Notes Notes Nos. 332 to 353, inclusive, Fourth Series A, $1,016,-081.11; said Paying Agent being Morgan Guaranty Trust Company of New York, at 140 Broadway, New York, New York; and

To Paying Agent for Preliminary Loan Notes Notes Nos. 354 to 363, inclusive, Fourth Series A, $1,016,-081.11; said Paying Agent being Harris Trust and Savings Bank, at 111 West Monroe Street, Chicago Illinois:

Provided, That the Government, at its option, may make the Requisitioned Payment in an amount equal to the difference between the aggregate of the principal of the New Preliminary Loan Notes and the interest thereon to maturity and funds deposited by or on behalf of the Local Public Agency with the Paying Agent for the purpose of paying principal or or interest on the New Preliminary Loan Notes. In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note shall be operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the New Preliminary Loan Notes shall be paid to the Local Public Agency and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

3. The Local Public Agency agrees that, so long as any of the New Preliminary Loan Notes are outstanding and unpaid, it will not repeal, amend, or modify the proceedings authorizing the execution and delivery of the Escrow Project Temporary Loan Note in such manner, or take any other action, as might affect or impair the validity of said Escrow Project Temporary Loan Note and that it will not revoke its instructions authorizing the Government to make payment therefor in accordance with Paragraph 2 hereof or its consent to the provisions of Paragraph 7 hereof.

4. The Government agrees that until such time as it shall have made payment for the Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said Escrow Project Temporary Loan Note and collateral documents for the account of the Local Public Agency. When the Government shall have made payment of the Requisitioned Payment in the manner above set forth, the Government shall hold said Escrow Project Temporary Loan Note for its own use and benefit as its own property. When and if the Local Public Agency shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the Local Public Agency from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the New Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the Local Public Agency said Escrow Project Temporary Loan Note, and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. The Government agrees that this Requisition Agreement is made with and for the benefit of, and may be assigned by the Local Public Agency to and for the benefit of, the holder or holders from time to time of the New Preliminary Loan Notes and of interest claims appertaining thereto. The Government further agrees with such holder or holders that it will perform and observe the provisions on its part set forth in this Requisition Agreement.

EXHIBIT "B"

REQUISITION AGREEMENT

Requisition Agreement No. 6 (Herein Called "Requisition Agreement") Relating to the Time of a Certain Project Temporary Loan Payment to be Made by the United States of America to the City of Chicago Which Payment Will be Evidenced by Project Temporary Loan Note No. 8.

Whereas, the Chicago Land Clearance Commission entered into a contract dated as of the 25th day of March, 1958, and numbered Contract No. Ill. R-2(LG) (which, together with any supplements thereto or amendments, modifications or waivers of any provisions thereof, is herein called the "Loan Contract"), with the United States of America (herein called the "Government") acting by and through the Housing and Home Finance Administrator, providing for a Project Temporary Loan by the Government to the Chicago Land Clearance Commission, under Title I of the Housing Act of 1949, as amended, in an amount outstanding at any one time not to exceed $4,949,986, to aid the Chicago Land Clearance Commission in the undertaking and carrying out of a certain urban renewal project (herein called the "Project") designated Project No. Ill R-2; and

Whereas, all the rights, duties, obligations, powers and liabilities of the Chicago Land Clearance Commission under said Loan Contract were assigned and transferred to the City of Chicago, a body corporate and politic duly organized and existing under the laws of the State of Illinois (herein sometimes called the "City"), pursuant to an Agreement of Novation by and among the City of Chicago, the Chicago Land Clearance Commission and the United States of America, and dated June 30, 1962; and

Whereas, in accordance with the Loan Contract, the Government has agreed, pursuant to an outstanding requisition agreement (herein called the "Outstanding Requisition Agreement") with the City, to make, on the 24th day of May, 1963, a payment on account of said Project Temporary Loan (to be evidenced by Project Temporary Loan Note No. 7 of the City, herein sometimes called "Old Escrow Project Temporary Loan Note") which has been pledged for the payment of the principal of and interest upon the Preliminary Loan Notes (Fifth Series A) of the City (herein called the "Outstanding Preliminary Loan Notes"); and

Whereas, in accordance with the Loan Contract, the City has filed with the Government and the Government has approved a requisition (herein called the "Requisition") together with necessary supporting documents for a new Project Temporay Loan payment thereunder in the amount of $1,925,000.00 (said new payment in said amount being hereinafter called the "Requisitioned Payment"), and the Government is obligated to make the Requisitioned Payment as hereinafter provided; and

Whereas, the City is able to obtain a short-term loan from sources other than the Government in the amount of $1,860,000.00 at an interest cost less than the interest required to be paid under the Loan Contract on Project Temporary Loan funds which are made available by the Government, and thereby reduce carrying charges and other Project costs, and the City has determined to obtain such short-term loan from sources other than the Government (1) in order to refund or retire the Project Temporary Loan Notes of the City, if any, held by the Government for its own use and benefit on the date of the new Preliminary Loan Notes; (2) in substitution for the Project Temporary Loan payment which the Government has agreed to make pursuant to the Outstanding Requisition Agreement; and (3) in anticipation of the Requisitioned Payment which the Government has become obligated to make by reason of the approval of the Requisition; and

Whereas, pursuant to said determination, the City on the 8th day of May, 1963, duly adopted an Ordinance entitled "Authorizing the Sale, Issuance and Delivery of Preliminary Loan Notes in the Aggregate Principal Amount of $1,860,000.00, the Execution of Requisition Agreement No. 6, and the Execution and Delivery of Project Temporary Loan Note No. 8, in Connection with Project No. Ill R-2, authorizing among other things the sale, issuance, and delivery of its Preliminary Loan Notes (Sixth Series A), herein called the "New Preliminary Loan Notes"; and

Whereas, The Government desires to cooperate with the City in its efforts to reduce the aforementioned costs, and desires to encourage participation of private capital in the cost of the Project; and

Whereas, the City has authorized and deposited with the Government its Project Temporary Loan Note No. 8 (herein called the "New Escrow Project Temporary Loan Note") payable to the United States of America or order in the principal amount of the Requisitioned Payment, together with all necessary collateral documents, with directions to take delivery thereof upon compliance by the Government with the provisions of Paragraph 2 hereof; and the Government has approved the form and execution of the New Escrow Project Temporary Loan Note and collateral documents, and has approved all of the proceedings authorizing the issuance of said New Escrow Project Temporary Loan Note and the legality thereof when paid for in accordance with the terms of this Requisition Agreement, and has accepted deposit of said New Escrow Project Temporary Loan Note pending its payment therefor as aforesaid:

Now, Therefore, This Agreement Witnesseth:

That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The City of Chicago agrees that simultaneously with the payment for said New Preliminary Loan Notes by the purchaser or purchasers thereof (and using the proceeds of said New Preliminary Loan Notes, and other appropriate funds of the City to the extent necessary therefor) it will pay or cause to be paid (a) to the Government an amount equal to the aggregate principal amount of the Project Temporary Loan Notes, if any, of the City held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and (b) to the paying agent or agents for the Outstanding Preliminary Loan Notes the amount of Two Million One Hundred Forty-Eight Thousand Six Hundred Twenty-Six and 00/100 Dollars ($2,148,626.00) for the sole and only purpose of paying the principal of and the interest upon said Outstanding Preliminary Loan Notes to their maturity; and the Government agrees that simultaneously with said payments it will cause the Old Escrow Project Temporary Loan Note, and the Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, to be canceled and returned to the City.

2. The City hereby directs, and the Government agrees that without any further showing by the City of the necessity therefor, and irrespective of compliance by the City with the conditions of Paragraph 1 above, the Government will make payment of the Requisitioned Payment as follows, and in no other manner: Said Requisitioned Payment will be made on the 14th day of May, 1964, (or if the Government desires and the City consents thereto, at any time prior to said date) in the amounts set forth below, to the paying agents named in the New Preliminary Loan Notes for the account of the City, to be used to the extent necessary for the payment of the principal of and interest to maturity on said New Preliminary Loan Notes:

To Paying Agent for Preliminary Loan Notes Nos. 1 through 65, inclusive, Sixth Series A, $1,890,093.25; said Paying Agent being the Continental Illinois National Bank and Trust Company of Chicago, 231 South LaSalle Street, Chicago, Illinois:

Provided, That the Government, at its option, may make the Requisitioned Payment in an amount equal to the difference between the aggregate of the principal of the New Preliminary Loan Notes and the interest thereon to maturity and funds deposited by or on behalf of the City with the Paying Agent for the purposes of paying principal of or interest on the New Preliminary Loan Notes. In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note, shall by operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the New Preliminary Loan Notes shall be paid to the City and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

3. The City agrees that, so long as any of the New Preliminary Loan Notes are outstanding and unpaid, it will not repeal, amend, or modify the proceedings authorizing the execution and delivery of the New Escrow Project Temporary Loan Note in such manner, or take any other action, as might affect or impair the validity of said New Escrow Project Temporary Loan Note and that it will not revoke its instructions authorizing the Government to make payment therefor in accordance with Paragraph 2 hereof or its consent to the provisions of Paragraph 7 hereof.

4. The Government agrees that until such time as it shall have made payment for the New Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said New Escrow Project Temporary Loan Note and collateral documents for the account of the City. When the Government shall have made payment of the Requisitioned Payment in the manner set forth above, the Government shall hold said New Escrow Project Temporary Loan Note for its own use and benefit as its own property. When and if the City shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the City from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the New Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the City said New Escrow Project Temporary Loan Note, and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. The Government agrees that this Requisition Agreement is made with and for the benefit of, and may be assigned by the City to and for the benefit of, the holder or holders from time to time of the New Preliminary Loan Notes and of interest claims appertaining thereto. The Government further agrees with such holder or holders that it will perform and observe the provisions on its part set forth in this Requisition Agreement.

EXHIBIT "B"

REQUISITION AGREEMENT

Requisition Agreement No. 6 (Herein Called "Requisition Agreement") Relating to the Time of a Certain Project Temporary Loan Payment to be Made by the United States of America to the City of Chicago Which Payment Will be Evidenced by Project Temporary Loan Note No. 9.

Whereas, the Chicago Land Clearance Commission entered into a contract dated as of the 13th day of March, 1958, and numbered Contract No. Ill. R-3(LG) (which, together with any supplements thereto or amendments, modifications or waivers of any provisions thereof, is herein called the "Loan Contract"), with the United States of America (herein called the "Government") acting by and through the Housing and Home Finance Administrator, providing for a Project Temporary Loan by the Government to the Chicago Land Clearance Commission, under Title I of the Housing Act of 1949, as amended, in an amount outstanding at any one time not to exceed $8,659,274 to aid the Chicago Land Clearance Commission in the undertaking and carrying out of a certain urban renewal project (herein called the "Project") designated Project No. Ill. R-3; and

Whereas, all the rights, duties, obligations, powers and liabilities of the Chicago Land Clearance Commission under said Loan Contract were assigned and transferred to the City of Chicago, a body corporate and politic duly organized and existing under the laws of the State of Illinois (herein sometimes called the 'City"), pursuant to an Agreement of Novation by and among the City of Chicago, the Chicago Land Clearance Commission and the United States of America, and dated June 30, 1962; and

Whereas, in accordance with the Loan Contract, the Government has agreed, pursuant to an outstanding requisition agreement (herein called the "Outstanding Requisition Agreement") with the City, to make, on the 24th day of May, 1963, a payment on account of said Project Temporary Loan (to be evidenced by Project Temporary Loan Note No. 8 of the City, herein sometimes called "Old Escrow Project Temporary Loan Note") which has been pledged for the payment of the principal of and interest upon the Preliminary Loan Notes (Fifth Series B) of the City (herein called the "Outstanding Preliminary Loan Notes"); and

Whereas, in accordance with the Loan Contract, the City has filed with the Government and the Government has approved a requisition (herein called the "Requisition") together with necessary supporting documents for a new Project Temporary Loan payment thereunder in the amount of $4,609,000.00 (said

new payment in said amount being hereinafter called the "Requisitioned Payment"), and the Government is obligated to make the Requisitioned Payment as hereinafter provided; and

Whereas, the City is able to obtain a short-term loan from sources other than the Government in the amount of $4,453,000.00 at an interest cost less than the interest required to be paid under the Loan Contract on Project Temporary Loan funds which are made available by the Government, and thereby reduce carrying charges and other Project costs, and the City has determined to obtain such short-term loan from sources other than the Government (1) in order to refund or retire the Project Temporary Loan Notes of the City, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes; (2) in substitution for the Project Temporary Loan payment which the Government has agreed to make pursuant to the Outstanding Requisition Agreement; and (3) in anticipation of the Requisitioned Payment which the Government has become obligated to make by reason of the approval of the Requisition; and

Whereas, pursuant to said determination, the City on the 8th day of May, 1963, duly adopted an Ordinance entitled "Authorizing the Sale, Issuance and Delivery of Preliminary Loan Notes in the Aggregate Principal Amount of $4,453,000.00, the Execution of Requisition Agreement No. 6, and the Execution and Delivery of Project Temporary Loan Note No. 9, in Connection with Project No. Ill. R-3, authorizing among other things the sale, issuance, and delivery of its Preliminary Loan Notes (Sixth Series B), herein called the "New Preliminary Loan Notes"; and

Whereas, the Government desires to cooperate with the City in its efforts to reduce the aforementioned costs, and desires to encourage participation of private capital in the cost of the Project; and

Whereas, the City has authorized and deposited with the Government its Project Temporary Loan Note No. 9 (herein called the "New Escrow Project Temporary Loan Note") payable to the United States of America or order in the principal amount of the Requisitioned Payment, together with all necessary collateral documents, with directions to take delivery thereof upon compliance by the Government with the provisions of Paragraph 2 hereof; and the Government has approved the form and execution of the New Escrow Project Temporary Loan Note and collateral documents, and has approved all of the proceedings authorizing the issuance of said New Escrow Project Temporary Loan Note and the legality thereof when paid for in accordance with the terms of this Requisition Agreement, and has accepted deposit of said New Escrow Project Temporary Loan Note pending its payment therefore as aforesaid:

Now, Therefore, This Agreement Witnesseth:

That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The City of Chicago agrees that simultaneously with the payment for said New Preliminary Loan Notes by the purchaser or purchasers thereof (and using the proceeds of said New Preliminary Loan Notes, and other appropriate funds of the City to the extent necessary therefor) it will pay or cause to be paid (a) to the Government an amount equal to the aggregate principal amount of the Project Temporary Loan Notes, if any, of the City held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and (b) to the paying agent or agents for the Outstanding Preliminary Loan Notes the amount of Four Million Six Hundred Twenty Thousand Eight Hundred Fifty-Seven and 99/100 Dollars ($4,620,857.99) for the sole and only purpose of paying the principal of and interest upon said Outstanding Preliminary Loan Notes to their maturity; and the Government agrees that simultaneously with said payments it will cause the Old Escrow Project Temporary Loan Note, and the Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, to be canceled and returned to the City.

2. The City hereby directs, and the Government agrees that without any further showing by the City of the necessity therefor, and irrespective of compliance by the City with the conditions of Paragraph 1 above, the Government will make payment of the Requisitioned Payment as follows, and in no other manner: Said Requisitioned Payment will be made on the 14th day of May, 1964, (or if the Government desires and the City consents thereto, at any time prior to said date) in the amounts set forth below, to the paying agents named in the New Preliminary Loan Notes for the account of the City, to be used to the extent necessary for the payment of the principal of and interest to maturity on said New Preliminary Loan Notes:

To Paying Agent for Preliminary Loan Notes Nos. 1 through 185, inclusive, Sixth Series B, $4,524,-898.75; said Paying Agent being Continental Illinois National Bank and Trust Company of Chicago, 231 South LaSalle Street, Chicago, Illinois:

Provided, That the Government, at its option, may make the Requisitioned Payment in an amount equal to the difference between the aggregate of the principal of the New Preliminary Loan Notes and the interest thereon to maturity and funds deposited by or on behalf of the City with the Paying Agent for the purposes of paying principal of or interest on the New Preliminary Loan Notes. In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note shall by operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the New Preliminary Loan Notes shall be paid to the City and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

3. The City agrees that, so long as any of the New Preliminary Loan Notes are outstanding and unpaid, it will not repeal, amend, or modify the proceedings authorizing the execution and delivery of the New Escrow Project Temporary Loan Note in such manner, or take any other action, as might affect or impair the validity of said New Escrow Project Temporary Loan Note and that it will not revoke its instructions authorizing the Government to make payment therefor in accordance with Paragraph 2 hereof or its consent to the provisions of Paragraph 7 hereof.

4. The Government agrees that until such time as it shall have made payment for the New Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said New Escrow Project Temporary Loan Note and collateral documents for the account of the City. When the Government shall have made payment of the Requisitioned Payment in the manner set forth above, the Government shall hold said New Escrow Project Temporary Loan Note for its own use and benefit as its own property. When and if the City shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the City from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the New Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the City said Escrow Project Temporary Loan Note, and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. The Government agrees that this Requisition Agreement is made with and for the benefit of, and may be assigned by the City to and for the benefit of, and may be assigned by the City to and for the benefit of, the holder or holders from time to time of the New Preliminary Loan Notes and of interest claims appertaining thereto. The Government further agrees with such holder or holders that it will perform and observe the provisions on its part set forth in this Requisition Agreement.

Pursuant to said loan contract, and in furtherance of the financing of the project, the Local Public Agency and the United States have entered into the above-identified Requisition Agreement under which the latter has agreed, without limiting in any manner the unqualified Payment Agreement of the United States endorsed on the reverse of this Note, to make a specific loan payment to the Local Public Agency on or prior to said Maturity Date in an amount sufficient to pay the principal of and interest to maturity on this Note and said Authorized Issue of which this Note is one, and to cause to be deposited with the Paying Agent, for the benefit of the holder of this Note, an amount sufficient to pay such principal and interest to maturity. Under the terms of said Ordinances the proceeds of said loan are irrevocably pledged first to such payments; and under the terms of said Requisition Agreement, the full faith and credit of the United States of America is pledged to the payment of the principal of and interest on this Note as evidenced by said Payment Agreement.

This Note shall not constitute an indebtedness of the City of Chicago within the meaning of any Constitutional, Statutory or Charter Debt Limitation and is not a general obligation of the City of Chicago, and, in no event, shall either this Note or the interest thereon be payable from or out of funds other than those provided by the United States of America to the Local Public Agency pursuant to said Requisition Agreement or by the United States of America pursuant to said Payment Agreement.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all conditions, acts and things required to exist, happen and be performed precedent to and in the issuance of this Note, do exist, have happened and have been performed in due time, form and manner as required by law: Provided, That this Note shall not be valid until the Paying Agent shall have executed the agreement, appearing below, to act as such Paying Agent.

Whereas, the Chicago Land Clearance Commission entered into a contract dated as of the 12th day of February, 1958, and numbered Contract No. Ill. R-8A(LG) (which, together with any supplements thereto or amendments, modifications or waivers of any provisions thereof, is herein called the "Loan Contract"), with the United States of America (herein called the "Government") acting by and through the Housing and Home Finance Administrator, providing for a Project Temporary Loan by the Government to the Chicago Land Clearance Commission, under Title I of the Housing Act of 1949, as amended, in an amount outstanding at any one time not to exceed $3,900,344 to aid the Chicago Land Clearance Commission in the undertaking and carrying out of a certain urban renewal project (herein called the "Project") designated Project No. Ill. Whereas, the City is able to obtain a short-term loan from sources other than the Government in the amount of $845,000.00 at an interest cost less than the interest required to be paid under the Loan Contract on Project Temporary Loan funds which are made available by the Government, and thereby reduce carrying charges and other Project costs, and the City has determined to obtain such short-term loan from sources other than the Government (1) in order to refund or retire the Project Temporary Loan Notes of the City, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes; (2) in substitution for the Project Temporary Loan payment which the Government has agreed to make pursuant to the Outstanding Requisition Agreement; and (3) in anticipation of the Requisitioned Payment which the Government has become obligated to make by reason of the approval of the Requisition; and

Whereas, pursuant to said determination, the City on the 8th day of May, 1963, duly adopted an Ordinance entitled "Authorizing the Sale, Issuance and Delivery of Preliminary Loan Notes in the Aggregate Principal Amount of $845,000.00, the Execution of Requisition Agreement No. 6, and the Execution and Delivery of Project Temporary Loan Note No. 8, in Connection with Project No. Ill R-8A authorizing among other things the sale, issuance, and delivery of its Preliminary Loan Notes (Sixth Series C), herein called the "New Preliminary Loan Notes"; and

Whereas, the Government desires to cooperate with the City in its ecorts to reduce the aforementioned costs, and desires to encourage participation of private capital in the cost of the Project; and

That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The City of Chicago agrees that simultaneously with the payment for said New Preliminary Loan Notes by the purchaser or purchasers thereof (and using the proceeds of said New Preliminary Loan Notes, and other appropriate funds of the City to the extent necessary therefor) it will pay or cause to be paid (a) to the Government an amount equal to the aggregate principal amount of the Project Temporary Loan Notes, if any, of the City held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and (b) to the paying agent or agents for the Outstanding Preliminary Loan Notes the amount of Nine Hundred Eighty-Eight Thousand Three Hundred Thirty-One and 34/100 Dollars ($988,331.34) for the sole and only purpose of paying the principal of and interest upon said Outstanding Preliminary Loan Notes to their maturity; and the Government agrees that simultaneously with said payments it will cause the Old Escrow Project Temporary Loan Note, and the Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, to be canceled and returned to the City.

The City hereby directs, and the Government agrees that without any further showing by the City of the necessity therefor, and irrespective of compliance by the City with the conditions of Paragraph 1 above, the Government will make payment of the Requisitioned Payment as follows, and in no other manner: Said Requisitioned Payment will be made on the 14th day of May, 1964 (or if the Government desires and the City consents thereto, at any time prior to said date) in the amounts set forth below, to the paying agents named in the New Preliminary Loan Notes for the account of the City, to be used to the extent necessary for the payment of the principal of and interest to maturity on said New Preliminary Loan Notes:

To Paying Agent for Preliminary Loan Notes Nos. 1 through 41, inclusive, Sixth Series C, $858,671.40; said Paying Agent being the Continental Illinois National Bank and Trust Company of Chicago, 231 South LaSalle Street, Chicago, Illinois:

Provided, That the Government, at its option, may make the Requisitioned Payment in an amount equal to the difference between the aggregate of the principal of the New Preliminary Loan Notes and the interest thereon to maturity and funds deposited by or on behalf of the City with the Paying Agent for the purposes of paying principal of or interest on the New Preliminary Loan Notes. In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note shall by operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the New Preliminary Loan Notes shall be paid to the City and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

4. The Government agrees that until such time as it shall have made payment for the New Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said New Escrow Project Temporary Loan Note and collateral documents for the account of the City. When and if the City shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the City from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the New Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the City said New Escrow Project Temporary Loan Note, and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. 8. The FAA in tendering this offer on behalf of the United States recognizes the existence of an agency relationship between the City of Chicago, Illinois, as principal, and the State of Illinois, Department of Aeronautics, as agent, created by an Agency and Participation Agreement entered into for and on behalf of the City of Chicago on December 6, 1962, and for and on behalf of the State of Illinois, Department of Aeronautics on November 15, 1962. The City of Chicago and said Department agree that they will not amend, modify or terminate said Agency and Participation Agreement without prior approval in writing of the FAA.
9. The Sponsor hereby covenants and agrees that, to the extent that the Sponsor holds or may hereafter acquire ownership or such other rights as may legally allow it to carry out its obligations under this covenant, it will not permit or suffer any growth, structure, or object, except farm crops, grazing animals or such structures as are necessary as aids to air navigation on any land lying within zones, trapezoid in shape, extending outwardly 2000 feet from points located 200 feet outward from each end of the N/S runway along the centerline thereof as projected outward, the said zones each being 400 feet wide at the said beginning points, measured 200 feet on each side of the said projected centerline, and increasing to a width of 800 feet at their outer extremities, measured 400 feet on each side of the said projected centerline.
10. It is understood and agreed by and between the parties hereto that Paragraph 9 of Part III—Sponsor's Assurances of the Project Application dated September 5, 1962, is hereby deleted in its entirety. It is recognized by the parties hereto that Paragraph (5) of Section II of the Federal Airport Act (49 U.S.C. 1101(5)), as amended, provides that the Sponsor "will furnish without cost to the Federal Government for use in connection with any air traffic control activities, or weather-reporting activities and communications activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the Administrator may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes". The Federal Government does not now plan or contemplate the construction of any structures for any of the activities set forth in said Paragraph (5) of Section 11 and, therefore, it is further understood and agreed that the Sponsor is under no obligation to furnish any such areas or rights under this Grant Agreement. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the Sponsor under prior Grant Agreements to furnish rent-free space for the aforementioned activities.
11. (a) It is understood and agreed that the following is substituted for the provisions of Paragraph 3, Part III, Sponsor's Assurances of the said Project Application: "The Sponsor will not grant or permit any exclusive right for the use of the airport forbidden by Section 308 of the Federal Aviation Act of 1958 and will otherwise comply with all applicable laws, and with the policies of the Federal Aviation Agency with respect to the conduct of aeronautical activities on the airport as set worth in the statement of policy published in the Federal Register of July 25, 1962 (25 F.R. 7054). In furtherance of this covenant, but without limiting its general applicability and effect, the Sponsor specifically agrees that, unless authorized by the Administrator, it will not, either directly or indirectly,

grant or permit any person, firm or corporation, the exclusive right for the conduct of any aeronautical activity on the airport, including but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activities, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity: Provided, that the Sponsor may grant such exclusive right that is permitted under any surplus property instrument of transfer pursuant to which surplus property was conveyed to the Sponsor by the United States pursuant to the Surplus Property Act of 1944, (61 Stat. 678), as amended."

(b) Sponsor hereby covenants and agrees that, within one year from the date of issuance of this Grant Offer, it will take such action as is necessary and appropriate to extinguish any and all exclusive rights with respect to the conduct of aeronatuical activities on the airport which are forbidded by Section 308 of the Federal Aviation Act of 1958, as set forth in the Statement of Policy published in the Federal Register of July 25, 1962 (25 F.R. 7054).

12. It is understood and agreed that each contract awarded for construction work under this project is subject to the provisions of the Work Hours Act of 1962, Public Law 87-581. It is further understood and agreed that each such contract will contain stipulations requiring the contractor or subcontractor to pay wages to all laborers and mechanics employed on the work in conformance with the provisions of the Act and that the Sponsor may withhold or cause to be withheld from the contractor or subcontractor so much of the accrued payments as may be considered necessary to pay laborers and mechanics employed by any such contractor or subcontractor on the work the full amount of wages required by the contract and such sums as may administratively be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for liquidated damages as provided by the Act. It is also understood and agreed that, in the event of failure of any contractor or subcontractor to pay any laborer or mechanic employed or working on the site of the work all or part of the wages required by the contract, the FAA may, after written notice to the Sponsor, withhold from the Sponsor so much of the accrued payments or advances representing unpaid wages and liquidated damages.

13. It is recognized by the parties hereto that on February 11, 1963, Part 550 of the Regulations of the Federal Aviation Agency (14 CFR 550) was deleted and superseded by Part 151 of the Federal Aviation Regulations (27 FR 12348). Therefore, it is understood and agreed that Paragraphs 2(b), 3 and 4 of this Grant Offer are hereby deleted and the following Paragraphs 2(b), 3 and 4 are substituted in their place and stead:

"2(b) carry out and complete the Project without undue delay and in accordance with the terms hereof, the Federal Airport Act, as amended, and Sections 151.45, 151.47, 151.49, 151.51, 151.53 and 151.55, of the Federal Aviation Regulations (27 FR 12348) in effect as of the date of acceptance of this Offer; which Regulations are hereinafter referred to as the 'Regulations';"

"3. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under Section 151.41(b) of the Regulations."

"4. Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of Sections 151.57, 151.59, 151.61 and 151.63 of the Regulations. Final determination as to the allowability of the costs of the project will be made at the time of the final grant payment pursuant to Section 151.63 of the Regulations: *Provided,* that, in the event a semi-final grant payment is made pursuant to Section 151.63 of the Regulations, final determination as to the allowability of those costs to which such semi-final payment relates will be made at the time of such semi-final payment."

14. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, final grant payment hereunder until the FAA has determined that the lease agreement between the Sponsor and Butler Company is not contrary to Section 308 of the Federal Aviation Act of 1958 and will not interfere with the Sponsor's control of the airport or ability to carry out its obligations and covenants as set forth in this Grant Agreement and in the Project Application which is made a part hereof; and the Sponsor hereby agrees that it will submit to the FAA such copies of said lease agreement or other information pertaining thereto as it may request for the purpose of making such determination.

15. The terms "Regional Administrator of the Federal Aviation Agency, Region 4" and "Regional Administrator" wherever they appear in the Project Application, plans and specifications, or any other documents constituting a part of this Agreement, shall be deemed to mean, respectively, "Assistant Administrator, Central Region, Federal Aviation Agency" and "Assistant Administrator".

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Federal Airport Act, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

affecting use of the Airport or the existence of pending litigation or other legal proceedings which in reasonable probability might make it impossible for the Sponsor to carry out and complete the Project or carry out the provisions of Parts III and IV of the Project Application, either by limiting its legal or financial ability or otherwise, except as follows:

None.

6. Land.—The Sponsor holds the following property interests in the following areas of land which are to be developed or used as part of or in connection with the Airport, subject to the following exceptions, encumbrances, and adverse interests, all of which areas[1] are identified on the aforementioned property map designated as Exhibit "A":

Land compromising Sections 22 and 23, Township 39 North, Range 13 East of the Third Principal Meridian in Cook County, Illinois—Lease dated October 8, 1946, Page 6438, Chicago Council Proceedings and amended December 18, 1948, Page 6711, Chicago Council Proceedings and amended April 4, 1949, Page 3496, Chicago Council Proceedings and amended September 14, 1955. Except as herein noted the title is in the same status as that submitted in previous Federal projects.

The Sponsor further certifies that the above is based on a title examination by a qualified attorney or title company and that such attorney or title company has determined that the Sponsor holds the above property interests.

PART III— SPONSOR'S ASSURANCES.

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the Regional Administrator, and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use without discrimination between such types, kinds, and classes: *Provided,* That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport: *And Provided Further,* That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor will not exercise, grant, or permit any exclusive right for the use of the Airport forbidden by Section 308 of the Federal Aviation Act of 1958. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will not either directly or indirectly exercise, or grant to any person, firm or corporation, or permit any person, firm, or corporation to exercise any exclusive right for the use of the Airport for commercial flight operations, including air carrier transportation, rental of aircraft, conduct of charter flights, operation of flight schools, or the carrying on of any other service or operation requiring the use of aircraft.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in any agreement, contract, lease, or other arrangement under which a right or priviledge at the Airport is granted to any person, firm, or corporation to render to the public any service (including the furnishing or sale of any aeronautical parts, materials, or supplies) essential to the operation of aircraft at the Airport, the Sponsor will insert and enforce provisions requiring the contractor:

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service: *Provided,* That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

b. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to, maintenance and repair) that it may choose to perform.

c. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection *a,* the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection *a.*

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided,* That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further,* That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

[1]State character of property interests in each area and list and indentify for each all exceptions, encumbrances, and adverse interests of every kind and nature, including liens, easements, leases, etc. The separate areas of land need only be identified here by the area numbers shown on the property map.

7. In sofar as it is within its powers and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section A of FAA Technical Standard Order No. N18, dated April 26, 1950. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid, and all those usable for the landing and taking-off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the Regional Administrator, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Regional Administrator, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each take-off as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the Regional Administrator, the Sponsor will furnish to any civil agency of the United States, without charge (except for light, heat, janitor service, and similar facilities and services at the reasonable cost thereof), such space in airport buildings as may be determined by the Regional Administrator to be reasonably adequate for use in connection with any airport air traffic control activities, weather-reporting activities, and communications activities related to airport air traffic control, which are necessary to the safe and efficient operation of the Airport and which such agency may deem it necessary to establish and maintain at the airport for such purposes: *Provided, however,* That the amount of space the Sponsor may be required to furnish for such purposes, and on such conditions, shall not be in excess of the maximum amounts prescribed in the Grant Agreement relating to the Project. Such space or any portion thereof will be made available as provided herein within six months after receipt of written request from the Regional Administrator. Additional building space for such purposes may be furnished to any civil agency of the United States upon such terms as may be agreed upon between such civil agency and the Sponsor.

10. The Sponsor will furnish the Regional Administrator with such annual or special airport financial and operational reports as he may reasonably request. Such reports may be submitted to the Regional Administrator on forms furnished by him, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the Regional Administrator upon reasonable request. The Sponsor will furnish to the Regional Administrator, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the Regional Administrator to be eligible under the Act and the Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times a master plan layout of the Airport showing: (1) the boundaries of the Airport and of all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such master plan layout, and each amendment, revision, or modification thereof, shall be subject to the approval of the Regional Administrator, which approval shall be evidenced by the signature of the Regional Administrator or his authorized representative on the face of the master plan layout. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the master plan layout as so approved by the Regional Administrator, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. (*a*) The Sponsor will acquire within a reasonable time, but in any event prior to the start of any construction work under the Project, the following property interests in the following areas of land[1] on which such construction work is to be performed, all of which areas are identified on the property map which is attached hereto and identified as Exhibit "A":

Lease from the Chicago Park District.

(b) The Sponsor will acquire within a reasonable time, and if feasible prior to the completion of all construction work under the Project, the following property interests in the following areas of land[1] which are to be developed or used as part of or in connection with the Airport as it will be upon completion of the Project, all of which areas are identified on the property map which is attached hereto and identified as Exhibit "A":

Not Required.

14. If at any time it is determined by the Regional Administrator that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in paragraph 3 of Part II and paragraphs 13(*a*) and 13(*b*) of this Part, the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the covenants of this Part, the Sponsor will acquire, extinguish, or modify said right or claim of right in a manner acceptable to the Regional Administrator.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

PART IV—PROJECT AGREEMENT.

If the Project or any portion thereof is approved by the Regional Administrator, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the Regional Administrator, and the Grant Agreement with respect to the Project.

IN WITNESS WHEREOF, the Sponsor has caused this Project Application to be duly executed in its name, this 5th day of September, 1962.

Section 7. The City agrees that its Contrators will provide performance bonds in the full amounts of the Contracts guaranteeing satisfactory performance of the work and adequate insurance against claims for worker's compensation, public liability and property damage.

All such plans, estimates of cost, specifications, special provisions, and construction procedures as will affect the operation of CTA trains and other facilities shall be subject to approval by CTA.

Section 5. No changes shall be made in any approved plans, specifications or special provisions by either party hereto without the consent, in writing, of the other party hereto.

City will furnish CTA prints of the plans, specifications and special provisions as may be required to carry out CTA's work and upon completion of the work City will furnish CTA reproduced tracings of such as-built plans, specifications and special provisions as pertain to CTA facilities.

Section 6. CTA shall have the right to perform at City's expense, and without any prior notice thereof being given to City, any work of an emergency nature and necessary to permit normal railroad operations during the construction of said railroad bridge structure; however, CTA shall notify City within 48 hours after commencing any such work.

Section 7. City agrees to construct and complete, or cause to be constructed and completed at no expense to CTA, in accordance with said plans, specifications and special provisions therefor, the Southwest Expressway and the temporary and permanent railroad bridge structure, substructures, drainage structures, paving and appurtenances thereto, together with all other highway facilities under the tracks and across the right of way of CTA.

All work affecting the property and operation of CTA shall be awarded by City to a competent contractor (or contractors) experienced in such work and having adequate equipment, organization and finances to do the work safely and effectively.

City shall assume and bear the cost of all protective measures which CTA may deem necessary to safeguard CTA's employees, tracks, trains and other property or facilities, or as seen fit to protect CTA's operations made necessary by construction methods employed by the contractor (or contractors). The requirements of CTA for providing such protective measures and including the number and classification of employees, rates of pay and additional payroll charges are shown on Exhibit "B" attached hereto and made a part hereof.

City shall reimburse CTA for the actual cost to it of such protective measures promptly upon receipt of bills but in no event later than 120 days after completion of the project.

After the award of any contract, or contracts, contemplated by this agreement and before the work is started on this project, a conference shall be held between City, CTA and the contractor (or contractors) at a time and place to be designated by City for the purpose of coordinating the work to be performed; at which meeting a tentative schedule of operations shall be adopted and measures agreed upon to meet CTA's requirements for the protection of its clearances, operations and general safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 8. City agrees, at the sole cost and expense of City, to make such changes in the CTA communications and signal lines, signals, tracks and other railroad facilities as may be necessitated by the construction of this improvement. The work must include inspection and rehabilitation of the center track and center track structure if this struc-

ture is to be used during the staging. Rehabilitation is to include maintaining stability of the structure if used as a two-track or single track structure. Contractor's work shall include all new railroad facility construction as well as staging construction, including track cut and throw requirements for staging.

For the cost of any work done by CTA, made necessary by changes in the plans approved by the parties hereto, pursuant to the provisions of Section 5 hereof, or any emergency work necessary to safeguard and maintain any operations of CTA, or for any other reason, caused by the construction of this improvement, reimbursement shall be made to CTA by City for such cost, and CTA shall furnish to City a detailed statement (in sets of ten (10)) monthly to be audited by City and the Bureau of Public Roads as provided hereinafter in this Section.

CTA shall furnish City a statement of the actual labor performed on this project in the form and manner as may be required by City and it shall conform to the provisions of "Policy and Procedure Memorandum 30-3", as amended.

The records of CTA substantiating the cost and expense shown on detailed statements shall be kept available and in such order that an audit can be readily made by City and the Bureau of Public Roads.

In case of emergency work, referred to in this Section, a revised estimate shall be prepared by CTA and submitted to City promptly after such work has been done.

Section 9. A. City agrees to direct its contractor (or contractors) that the safety and continuity of operations of CTA traffic shall be of first importance and shall at all times be protected and safeguarded. City shall require its contractor (or contractors) as regards any and all necessary falsework, bracing and forms or other temporary obstruction, to provide a minimum horizontal clearance of eight feet (8′) from the center line of the nearest track and to conduct his or their operations upon CTA right of way in full compliance with the rules, regulations and requirements of CTA. When necessary, all construction work which requires single track operations shall be performed on weekends to minimize the disturbance to train operations.

B. City shall require its contractor (or contractors) to give written notice to CTA in care of Chief Engineer of CTA, Merchandise Mart, Chicago, Illinois, at least 72 hours in advance of the time the contractor (or contractors) intends to start any work on CTA right of way.

Whenever such work, in the opinion of CTA's Chief Engineer or his duly authorized representative, may effect the safety of trains and the continuity of CTA operation, the method of doing such work shall first be submitted to CTA's Chief Engineer for his approval, which, shall not be unreasonably withheld or delayed and without which the work shall not be commenced or prosecuted. The approval of CTA's Chief Engineer shall not be considered as a release from responsibility or liability for any damage which CTA may suffer, or for which they may be held liable by the acts of the contractor or those of his subcontractors or his or their employees.

C. In the event that CTA's Chief Engineer shall deem any of the work or operations of City or City's contractors hazardous to CTA operations, City shall suspend or cause its contractor (or contractors) to suspend such work until reasonabl remedial measures, satisfactory to CTA's Chief Engineer or his duly authorized representative, are taken.

D. CTA shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this agreement. The cost of providing such inspection, which is estimated as shown in Exhibit "B", shall be reimbursed to CTA as hereinabove provided. CTA shall submit to City a statement (in sets of ten (10) each) of the cost and expense incurred by it performed at the expense of City as shown in the detailed estimate marked Exhibit "B". After City has checked such statement and has found the same to be correct, City shall reimburse CTA within thirty (30) days after receipt of bills for the amount thereof. Such reimbursement shall be subject to the requirement that all expense billed to City must be allowable charges under the provisions of "Policy and Procedure Memorandum 30-3" dated August 15, 1955, as amended, issued by the United States Department of Commerce, Bureau of Public Roads.

Section 10. Insurance—before the commencement of any work under this agreement, City shall require its contractor (or contractors) to procure on his own behalf Public Liability and Property Damage Insurance and also to procure insurance in accordance with Bureau of Public Roads "Policy and Procedure Memorandum 20-12", dated March 5, 1959, and by reference made a part hereof, which will protect and save harmless CTA and City, as stated therein. Limits of liability of both said contractor's protective insurance and said railroad protective insurance shall be $250,000.00 for each individual and $5,000,000.00 for each occurrence with respect to bodily injury or death; and $1,000,000.00 for each occurrence with an aggregate of $2,000,000.00 for the term of the policies with respect to property damage including physical damage to CTA property. Such insurance shall be with a company or companies licensed by the State of Illinois, and shall remain in full force and effect during the period of construction and until completion and acceptance of the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

Section 11. City shall require its contractor (or contractors) upon final completion of the work of such contractor (or contractors) to remove from within the limits of the right of way of CTA all machinery, equipment, surplus materials, falsework, rubbish or temporary buildings of such contractor (or contractors) and leave such right of way in a condition satisfactory to CTA.

Section 12. After the construction of the railroad bridge structure has been completed, CTA shall, at its own cost and expense, maintain, repair, and renew said bridge, together with all other CTA facilities constructed or changed by it under the terms of this agreement. Prior to performing any maintenance operations which might infringe on Expressway clearances, CTA shall first obtain permission from City to enter upon the Expressway right of way for this purpose. City shall, at its own cost and expense, maintain, repair, and renew all highway facilities constructed hereunder. In the event of damage to the railroad structure resulting from the operations of CTA, CTA shall be liable to make the necessary repairs to said structure in order to restore the same substantially to its former condition. City shall reimburse CTA for the cost of any repairs to CTA's property caused by City's operations hereunder or by Expressway traffic.

Section 13. At project expense, CTA's symbol, emblem or name, as shown in the plans and specifications, will be displayed on the railroad bridge structure, in the form of either a sign, plaque,

medallion or an inscription painted directly upon the overhead girders thereof, providing said identifying mark of CTA is sufficiently small to serve for information purposes rather than for advertisement. Such identifying mark of CTA shall conform with the provisions of Section 21 of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 21-10", entitled "Elimination of Hazards of Railway-Highway Crossings", dated October 3, 1958, and subsequent amendments thereto.

CTA and City further agree not to erect or grant permission to others to erect any advertising signs on CTA property within the limits of the easement space.

Section 14. It is hereby mutually agreed that, upon completion of all of the work provided for in this agreement, and after payment of all bills by City to CTA for outstanding claims, City may assign to the State of Illinois, all rights and obligations obtained and assumed by City under this agreement, to maintain such structures built under this agreement for the maintenance of which City is liable.

Section 15. This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, the parties hereto have caused this agreement to be executed by their proper officers thereunto duly authorized as of the day and year first above written.

SECTION 2. This ordinance shall take effect and be in full force and effect from and after its passage.

The aforedescribed premises within which the easement is granted is hereinafter referred to as the "highway easement space". The Southwest Expressway and the railroad bridge structure shall be constructed within the said highway easement space substantially as shown on Exhibit "A" attached hereto and made a part hereof.

Permission and authority is further granted City to use the additional adjacent property of Railroad within the limits marked "Temporary Easement" shown on Exhibit "A" for and in connection with City's work of constructing said Southwest Expressway and railroad bridge structure during the period of said construction only, it being specifically understood and agreed that such use of said property by City shall not interfere with Railroad's use thereof, except as provided by this agreement, and it is further understood and agreed that City shall reimburse Railroad for any and all cost and expense incurred by Railroad on account of damage to its property resulting from its use by City during the construction period, and further City shall hold Railroad harmless from any loss, damage or injury to any persons or property arising out of the use of said property by City.

Section 2. City shall own the railroad bridge structure which it assumes the responsibility of maintaining but grants Railroad the right in perpetuity to use said structure for all railroad purposes.

Section 3. It is hereby expressly agreed that Railroad does hereby reserve for itself, its lessees, successors and assigns, the right at all times to use and enjoy all of its property above and adjacent to the highway easement space for any and all purposes; provided, however, that such use shall not substantially interfere with, substantially reduce, or substantially curtail in any way the aforesaid grant.

Section 4. Railroad agrees to submit for approval by City plans of any building or structure to be constructed by Railroad on its right of way above the highway easement space.

Section 5. Preliminary and final detailed plans, field surveys, estimates of cost, specifications, proposal forms and necessary special provisions for said Southwest Expressway and railroad bridge structure, the substructures, drainage structures, facilities and other appurtenances shall be prepared by City at its sole expense. All such plans, estimates of cost, specifications, special provisions, and construction procedures as will affect the operation of Railroad's trains and other facilities shall be subject to approval by Railroad.

Section 6. No changes shall be made in any approved plans, specifications or special provisions by either party hereto without the consent, in writing, of the other party hereto.

City will furnish Railroad prints of the plans, specifications and special provisions as may be required to carry out Railroad's work and upon completion of the work City will furnish Railroad reproduced tracings of such as-built plans, specifications and special provisions as pertain to Railroad facilities.

Section 7. Railroad shall have the right to perform at City's expense, and without any prior notice thereof being given to City, any work it deems to be of an emergency nature and necessary to permit normal railroad operations during the construction of said railroad bridge structure; however, Railroad shall notify City within 72 hours after commencing such work.

Section 8. City agrees to construct and complete, or cause to be constructed and completed, at no expense to Railroad, in accordance with said plans, specifications and special provisions therefor, the Southwest Expressway and the temporary and permanent railroad bridge structure, substructures, drainage structures, paving and appurtenances thereto, together with all other highway facilities under the tracks and across the right of way of Railroad.

All work affecting the property and operations of Railroad shall be awarded by City to a competent contractor (or contractors) experienced in such work and having adequate equipment, organization and finances to do the work safely and effectively.

City shall assume and bear the cost of all protective measures which Railroad may deem necessary to safeguard Railroads employees, tracks, trains and other property or facilities, which shall be adopted and agreed upon at the conference hereinafter provided for or as seen fit to protect Railroad's operations made necessary by construction methods employed by the contractor (or contractors). The requirements of Railroad for providing such protective measures and including the

number and classification of employees, rates of pay and additional payroll charges are shown on Exhibit "B" attached hereto and made a part hereof.

City shall reimburse Railroad for the actual cost to it of such protective measures promptly upon receipt of bills but in no event later than 120 days after completion of the project.

After the award of any contract, or contracts, contemplated by this agreement and before the work is started on this project, a conference shall be held between City, Railroad and the contractor (or contractors) at a time and place to be designated by City for the purpose of coordinating the work to be performed at which meeting a tentative schedule of operations shall be adopted and measures agreed upon to meet Railroad's requirements for the protection of its clearances, operations and general safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 9. Railroad agrees, at the sole cost and expense of City, to make such changes in its communications and signal lines, signals, tracks and other railroad facilities as may be necessitated by the construction of this improvement. Railroad shall submit to City, monthly a statement (in sets of ten (10) each) of all the cost and expense incurred by it, or for its account, performed at the expense of City as shown in the detailed estimate marked Exhibit "B". After City has checked such statements and has found the same to be correct, City shall reimburse Railroad within thirty (30) days after receipt of bills, for ninety-five per cent (95%) of the amount thereof. Such reimbursement, however, will be audited by City each six (6) months and further be subject to the requirement that all expense billed to City must be allowable charges under the provisions of "Policy and Procedure Memorandum 30-3", dated August 15, 1955, as amended, issued by the United States Department of Commerce, Bureau of Public Roads.

After City and Bureau of Public Roads have examined, audited and approved final bill, City shall reimburse Railroad for the retained percentage, less the deduction of any item (or items) of expense found by City or the Bureau of Public Roads, to be improper for reimbursement by City.

The sum of ..... as set forth in Exhibit "B" has been computed on the basis of the cost of materials and labor rates effective as of date of said estimate.

For the cost of any work done by Railroad, in addition to the work described in the Exhibit "B", made necessary by changes in the plans approved by the parties hereto, pursuant to the provisions of Section 6 hereof, or any emergency work necessary to safeguard and maintain any operations of Railroad, or for any other reason, caused by the construction of this improvement, reimbursement shall be made to Railroad by City for such cost at the same rate for labor and materials as for the work described in Exhibit "B" and as listed in Exhibit "B" subject to escalator provisions of this Section, and Railroad shall furnish to City a detailed statement (in sets of ten (10)) monthly to be audited by City and the Bureau of Public Roads as provided hereinafter in this Section.

Railroad shall furnish City a statement of the actual labor performed on this project in the form and manner as may be required by City and it shall conform to the provisions of "Policy and Procedure Memorandum 30-3", as amended.

The records of Railroad substantiating the cost and expense shown on detailed statements shall be kept available and in such order that an audit can be readily made by City and the Bureau of Public Roads.

It is further understood that if, as of the time the work is performed by Railroad, the cost of such materials has increased over the cost of such materials as of the date of the aforesaid estimate or the labor rates which are required to be paid, and are paid in the performance of said work, are in excess of the labor rates required to be paid by Railroad as of the date of the aforesaid estimate, as shown hereon then, in that event, the sum of the aforesaid estimate shall be increased by an amount or amounts as represented by the increase of such cost of materials and such rates of labor; provided, however, that the increase in the cost of material and of labor shall not have been caused by any unreasonable delay of Railroad in the performance of its work hereunder.

In the event of any anticipated increase in cost due to increased labor rates or increased material costs, or due to changes in plans, Railroad shall submit a revised estimate to City for approval prior to the commencement of the work involved. City shall promptly approve such revised estimate if it complies with the provisions of this Section. In case of emergency work, referred to in this Section, a revised estimate shall be prepared by Railroad and submitted to City promptly after such work has been done.

Section 9A. Railroad has leased certain of its tracks within the limits of this improvement and in the immediate vicinity thereof to other railroads, and as a term of said leases such railroads have the right to the exclusive use of said tracks and are permitted to stand trains and cars on said leased tracks as desired. Such leases also provide that the lessee shall pay the property taxes for the leased tracks. During the period of construction of this improvement it will be necessary to remove portions of said leased tracks from operation, and during the period of such removal the lessees are not obligated to pay rental or taxes on the tracks removed. City agrees therefore to pay Railroad promptly upon completion of this improvement for actual loss of rentals incurred by Railroad under its said leases with other railroads for tracks removed from service during the period of construction of this improvementment, and, addition, City shall pay Railroad for the taxes Railroad is required to pay in place of its lessees during the period said tracks are removed from service. The amount of such taxes to be paid hereunder shall be determined based on the most recent available tax figures covering said tracks. The total amount to be paid Railroad hereunder for the loss of rental and taxes is estimated to be $13,784.28 and is shown in detail on Exhibit "C", attached hereto and made a part hereof.

City also agrees to pay Railroad promptly upon completion of this improvement the sum of $7,593.00 for interference and delay in yard operation caused during the construction of this improvement. The respective costs totaling this sum are shown in detail on Exhibit "C".

City shall make the payments herein provided for in addition to the payments required to be made under Section 9 of this agreement.

Section 10A City agrees to direct its contractor (or contractors) that the safety and continuity of operations of Railroad traffic shall be of first importance and shall at all times be protected and safeguarded. City shall require its contractor (or contractors) as regards any and all necessary falsework, bracing and forms or other temporary or permanent structure or obstruction, to provide a minimum horizontal clearance of eight feet (8')

from the center line of the nearest track and to conduct his or their operations upon Railroad right of way in full compliance with the rules, regulations and requirements of Railroad and with the orders, rules and regulations of the Illinois Commerce Commission.

B. City shall require its contractor (or contractors) to give written notice to Railroad in care of Chief Engineer of Railroad, 47 W. Polk street, Chicago, Illinois, at least 72 hours in advance of the time the contractor (or contractors) intends to start any work on Railroad right of way.

Whenever such work in the opinion of Railroad's Chief Engineer or his duly authorized representative, may affect the safety of trains and the continuity of Railroad operations, the method of doing such work shall first be submitted to Railroad's Chief Engineer for his approval, which, shall not be unreasonably withheld or delayed and without which the work shall not be commenced or prosecuted. The approval of Railroad's Chief Engineer shall not be considered as a release from responsibility or liability for any damage which Railroad or any railroad using Railroad's tracks or property may suffer, or for which they may be held liable by the acts of the contractor or those of his subcontractor or his or their employees.

C. In the event that Railroad's Chief Engineer shall deem any of the work or operations of City or City's contractors hazardous to Railroad operations, City shall suspend or cause its contractor (or contractors) to suspend such work until reasonable remedial measures, satisfactory to Railroad's Chief Engineer or his duly authorized representative, are taken.

D. Railroad shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this agreement.. The cost of providing such inspection, which is estimated to be ..... as shown on Exhibit "B", shall be reimbursed to Railroad as provided in Section 9 of this agreement.

Section 11. Insurance—before the commencement of any work under this agreement, City shall require its contractor (or contractors to procure insurance in accordance with Bureau of Public Roads "Policy and Procedure Memorandum 20-12", dated March 5, 1959, which will protect and save harmless Railroad and all other railroads using Railroad's tracks or property, and City, as stated therein. Limits of liability of said railroad protective insurance shall be $500,000.00 for each individual and $2,000,000.00 for each occurrence with respect to bodily injury or death; and $1,000,000.00 for each occurrence with an aggregate of $2,000,000.00 for the term of the policy with respect to property damage. Such insurance shall be subject to approval in content and form by Railroad and shall be with a company or companies licensed by the State of Illinois, and shall remain in full force and effect during the period of construction and until completion and acceptance of the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned. Railroad shall be furnished copies of said policy or policies of insurance before commencement of any work by contractor (or contractors).

Section 12. City shall require its contractor (or contractors) upon final completion of the work of such contractor (or contractors) to remove from within the limits of the right of way of Railroad all machinery, equipment, surplus materials, falsework, rubbish or temporary buildings of such contractor (or contractors) and leave such right of way in a condition satisfactory to Railroad.

Section 13. After the construction of the railroad bridge structure has been completed, Railroad shall, at its own cost and expense, maintain, repair, and renew, or cause the same to be done: (1) all track facilities, including ballast; (2) all other Railroad facilities constructed or changed by it under the terms of the agreement. City shall, at its own cost and expense, maintain, repair, and renew, or cause the same to be done, the entire railroad bridge structure, including the waterproofing thereon. Whenever access to Railroad's right of way becomes necessary in connection with any maintenance to be performed by City hereunder to the railroad bridge structure, City shall have the right to go upon Railroad's property for such purposes but shall obtain Railroad's permission before entering upon Railroad's right of way to perform such maintenance. Such permission by Railroad shall not be unreasonably withheld. In the event of damage (other than ordinary wear and tear) to the railroad bridge structure resulting from the operations of Railroad, City and Railroad shall make the repairs necessary to restore the same substantially to its former condition, and Railroad shall reimburse City for the actual cost to City of such repairs. City shall reimburse Railroad for the cost of any repairs to Railroad's property caused by City's operations hereunder or by Expressway traffic. All cost of protecting and maintaining railroad traffic during the ordinary maintenance or repair of the structure by City shall be borne by City.

Section 14. At project expense, Railroad's symbol, emblem or name, as shown in the plans and specifications, will be displayed on the railroad bridge structure, in the form of either a sign, plaque, medallion or an inscription painted directly upon the overhead girders thereof, providing said identifying mark of Railroad is sufficiently small to serve for information purposes rather than for advertisement. Such identifying mark of Railroad shall conform with the provisions of Section 21 of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 21-10", entitled "Elimination of Hazards of Railway-Highway Crossings", dated October 3, 1958, and subsequent amendments thereto.

Section 15. It is hereby mutually agreed that, upon completion of all of the work provided for in this agreement, and after payment of all bills by City to Railroad for outstanding claims, City may assign to the State of Illinois, all rights and obligations obtained and assumed by City under this agreement, to maintain such structures built under this agreement for the maintenance of which City is liable.

Section 16. This agreement shall not be binding upon the parties hereto until the Illinois Commerce Commission has entered an order, approving the same and authorizing the work herein described to be done under the terms herein set forth.

Section 17. This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, the parties hereto have caused this agreement to be executed by their proper officers thereunto duly authorized.

[Signature and acknowledgment form omitted]

SECTION 2. This ordinance shall take effect and be in full force and effect from and after its passage.

The premises described above shall be hereinafter referred to as the "highway easement space".

Section 2. City shall construct two overhead railroad bridge structures over and across the highway easement space on the property of Central and Rock Island. Said bridges shall be constructed as shown on Exhibit "A", attached hereto and made a part hereof. City shall own said bridge structures and shall permit Central and Rock Island, and their lessees, successors and assigns, to use said bridge structures in perpetuity for all railroad purposes, provided that such use does not interfere with the operation of the Southwest Expressway.

Section 3. Central and Rock Island shall permit City to temporarily use additional portions of their jointly-owned property lying north and south of the above-described highway easement space, which may be necessary in connection with the construction of said railroad bridge structures and the Southwest Expressway, during the period of construction only. It is specifically understood and agreed that such use of said property by City or its contractors shall not interfere with use of the property for railroad purposes by Central and Rock Island, except as provided in this agreement.

Section 4. Engineering Work. (a) By City: Preliminary and final detailed plans, field surveys, estimates of cost, specifications, proposal forms and necessary special provisions for said Southwest Expressway and railroad bridge structures, the substructures, drainage structures, facilities and other appurtenances shall be prepared by City at its sole expense. All such plans, estimates of cost, specifications, special provisions, and construction procedures as will affect the operation of Central or Rock Island trains and other facilities shall be subject to approval by Central and Rock Island.

(b) By Central and Rock Island: Preliminary engineering costs incurred by Central and Rock Island for the preparation of preliminary and detailed plans and estimates for trackwork, signals, communication changes and all other railroad appurtenances, together with reviewing the project agreement, the City's preliminary and detailed plans, specifications, proposal forms and special provisions for said railroad bridge structures, substructures, highway approaches, drainage structures, facilities and other appurtenances, shall be reimbursed to Central and Rock Island by City.

Section 5. No changes shall be made in any approved plans, specifications or special provisions by either party hereto without the consent, in writing, of the other parties hereto.

City will furnish Central and Rock Island prints of the plans, specifications and special provisions for the project and copies of all material test reports pertaining thereto as may be required to carry out Central and Rock Island work and upon completion of the work, City will furnish Central and Rock Island reproduced tracings of such "as-built" plans, specifications and special provisions as pertain to Central and Rock Island facilities.

Section 6. Central and Rock Island shall have the right to perform, at City expense and without any prior notice thereof being given to City, any work which either deems to be of an emergency nature and necessary to permit normal railroad operations during the construction of said railroad bridge structures; however, Central and Rock Island shall notify City within 72 hours after commencing such work.

Section 7. City agrees to construct and complete, or cause to be constructed and completed, at no expense to Central or Rock Island, in accordance with said plans, specifications and special provisions therefor, to be approved as aforesaid, the Southwest Expressway and the temporary and permanent railroad bridge structures, substructures, drainage structures, paving and appurtenances thereto, together with all other highway facilities under the tracks and under and across the right of way of Central and Rock Island, and the embankment for temporary detour tracks, and to remove the existing W. 25th Street viaduct.

City shall arrange for the performance of shop and mill inspection incidental to the fabrication of the steel work for said permanent railroad bridge structures, and shall furnish Central and Rock Island with reports of tests made thereon by City.

All work affecting the property and operation of Central and Rock Island shall be awarded by City to a responsible contractor (or contractors) experienced in such work and having adequate equipment, organization and finances to do the work safely and effectively.

City shall assume and bear the cost of all protective measures which Central and Rock Island may deem necessary to safeguard Central and Rock Island employees, tracks, trains and other property or facilities or as otherwise seen fit to protect Central and Rock Island operations made necessary by construction methods employed by the contractor (or contractors). The requirements of Central and Rock Island for providing such protective

measures including the number, classification and headquarters of employees, rates of pay, insurance and additional payroll charges are shown on Exhibits "C" and "D" respectively, attached hereto and made a part hereof.

City shall reimburse Central and Rock Island for the actual cost of such protective measures promptly upon receipt of bills.

After the award of any contract, or contracts, contemplated by this agreement and before the work is started on this project, a conference shall be held between City, Central, Rock Island and the contractor (or contractors) at a time and place to be designated by City, for the purpose of coordinating the work to be performed; at which meeting a tentative schedule of operations shall be adopted and measures agreed upon to meet Central and Rock Island requirements for the protection of their clearances, operations and general safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 8. Central and Rock Island each agrees to make, at the sole cost and expense of City, such changes, both temporary and permanent, in its communications and signal lines, signals, tracks and other railroad facilities as may be necessitated by the construction of this improvement, Central and Rock Island each shall submit to City, monthly, a statement (in sets of ten (10) each) of all the cost and expense incurred by it, or for its account, performed at the expense of City as shown in the detailed estimates marked Exhibits "E" and "F", respectively, attached hereto and made a part hereof. There progressive invoices may be rendered on the basis of an estimated percentage of the work completed. After City has checked such statements and has found the same to be correct, City shall reimburse Central and Rock Island within thirty (30) days after receipt of bills, for ninety-five per cent (95%) of the amount thereof, such reimbursement, however, to be audited by City each six (6) months and further be subject to the requirement that all expense billed to City must be allowable charges under the provisions of "Policy and Procedure Memorandum 30-3", dated August 15, 1955, as amended, issued by the United States Department of Commerce, Bureau of Public Roads.

After City and the U. S. Bureau of Public Roads have examined, audited and approved the final bills of Central and Rock Island, City shall reimburse Central and Rock Island for the retained percentages, less the deduction of any item (or items) of expense found by City or the Bureau of Public Roads to be improper for reimbursement by City.

The sum of $..... for Central and $..... for Rock Island as set forth in Exhibits "E" and "F", respectively, attached hereto, have been computed on the basis of the cost of materials and labor rates in effect on the date of said estimates.

For the cost of any work done by Central and Rock Island in addition to the work described in said Exhibits "E" and "F" made necessary by approved changes in the plans, specifications or special provisions, approved by the parties hereto, pursuant to the provisions of Section 5 hereof, or any emergency work necessary to safeguard and maintain any operations of Central or Rock Island, or for any other reason, caused by the construction of this improvement, reimbursement shall be made to Central and Rock Island by City for such cost at the same rates for labor and materials as for the work described in Exhibits "E" and "F" and as listed in Exhibits "E" and "F" subject to escalator provisions of this Section, and Central and Rock Island shall furnish to City a detailed statement (in sets of ten (10)) monthly to be audited by City and the Bureau of Public Roads as provided hereinafter in this Section.

Central and Rock Island shall furnish City separate statements of the actual labor performed on this project in the form and manner as may be required by City and it shall conform to the provisions of the aforesaid "Policy and Procedure Memorandum 30-3", and amendments thereto.

The records of Central and Rock Island substantiating their costs and expenses shown on detailed statements shall be kept available and in such order that an audit can be readily made by City and the U. S. Bureau of Public Roads.

It is further understood, that if, as of the time the work is performed by Central and Rock Island, the cost of such materials has increased over the cost of such materials as of the date of the aforesaid estimates or the labor rates which are required to be paid, and are paid in the performance of said work, are in excess of the labor rates required to be paid by Central or Rock Island as of the date of the aforesaid estimates, as shown thereon, then, in that event, the sum of the aforesaid estimates shall be increased by an amount or amounts as represented by the increase of such cost of materials and such rates of labor; provided, however, that the increase in the cost of material and of labor shall not have been caused by any unreasonable delay of Central or Rock Island in the performance of their work hereunder.

In the event of any changes in the plans, Central and Rock Island shall submit revised estimates of cost to City for approval prior to the commencement of the work involved. City shall promptly approve such revised estimates if they comply with the preceding provisions of this Section. In the event of emergency work, referred to in this Section, revised estimates including the cost of doing this additional work shall be prepared by Central and Rock Island and submitted to City promptly after such work has been done.

Section 9.A. City agrees to direct its contractor (or contractors) that the safety and continuity of operations of Central and Rock Island traffic shall be of first importance and shall at all times be protected and safeguarded. City shall require its contractor (or contractors) as regards any and all necessary falsework, bracing and forms or other temporary obstruction, to provide a minimum horizontal clearance of ten feet (10') from the center line of the nearest track and to conduct his or their operations upon Central and Rock Island right of way in full compliance with the rules, regulations and requirements of Central and Rock Island.

,B. City shall require its contractor (or contractors) to deliver by messenger, written notice to Central in care of Chief Engineer of Central, La Salle Street Station, Chicago, Illinois, and to Rock Island in care of Chief Engineer of Rock Island, La Salle Street Station, Chicago, Illinois, at least 72 hours in advance of the time the contractor (or contractors) intends to start any work on Central or Rock Island right of way.

Whenever such work, in the opinion of Central's or Rock Island's Chief Engineer or their duly authorized representative, may affect the safety of trains and the continuity of Central or Rock Island operations, the method of doing such work shall first be submitted to Central's and Rock Island's Chief Engineer for approval, which shall not be un-

reasonably withheld or delayed and without which the work shall not be commenced or prosecuted. The approval of Central's and Rock Island's Chief Engineer shall not be considered as a release from responsibility or liability for any damage which Central or Rock Island may suffer, or for which they may be held liable by the acts of the City's contractor or those of his subcontractors or his or their employees.

C. In the event that Central's or Rock Island's Chief Engineer shall deem any of the work or operations of City or City's contractors hazardous to Central or Rock Island operations, City shall suspend, or cause its contractor (or contractors) to suspend, such work until reasonably remedial measures, satisfactory to Centrals' or Rock Island's Chief Engineer or their duly authorized representative, are taken.

D. Central and Rock Island shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this agreement. Central and Rock Island shall also have the right to check the shop plans incidental to the fabrication of the steel work for said grade separation structures. The estimated cost of providing such inspection and checking such shop plans is shown on Exhibits "E" and "F" attached hereto, and the actual cost thereof shall be reimbursed to Central and Rock Island as provided in Section 8 of this agreement.

Section 10. Insurance—before the commencement of any work under this agreement City shall require its contractor (or contractors) to procure insurance in accordance with the provisions of the United States Department of Commerce, Bureau of Public Roads "Policy and Procedure Memorandum 20-12", entitled "Railway Highway Insurance Protection Required of Contractors", dated March 5, 1959 which will protect and save harmless individually, the Central, the Rock Island and the City as stated therein. Limits of liability of said railroad protective insurance shall be $500,000.00 for each individual and $9,000,000.00 for each occurrence with respect to bodily injury or death; and $1,000,000.00 for each occurrence with an aggregate of $2,000,000.00 for the term of the policy with respect to property damage. Such insurance shall be with a company or companies licensed by the State of Illinois and shall remain in full force and effect during the period of construction and until competition of and acceptance of the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

Section 11. City shall require its contractor (or contractors) upon final completion of the work of such contractor (or contractors) to remove from within the limits of the right of way of Central and Rock Island all machinery, equipment, surplus materials, falsework, rubbish or temporary buildings of such contractor (or contractors) and leave such right of way in a condition satisfactory to Central and Rock Island.

Section 12. After the construction of the aforementioned railroad bridge structures has been completed, Central and Rock Island shall, at their own cost and expense, maintain, repair, and renew, or cause same to be done: (1) All track facilities, including ballast; (2) All other of their facilities constructed or changed by them under the terms of this agreement.

Prior to performing any maintenance operations which might encroach on Expressway clearances, Central or Rock Island shall first obtain permission from City to enter upon the Expressway right of way for this purpose.

City shall, at its own cost and expense, maintain, repair, and renew, or cause same to be done, the aforementioned new railroad bridge structures, and all highway facilities and appurtenances constructed hereunder. City shall have the right to go upon Central and Rock Island property for such purposes but shall obtain Central and Rock Island permission before entering upon Central and Rock Island right of way to perform such maintenance, repair or renewal. Such permission by Central and Rock Island shall not be unreasonably withheld. In the event of damage to the new railroad bridge structures resulting from the operations of Central or Rock Island, City and Central or Rock Island shall make the repairs necessary to restore the same substantially to its or their former condition, and Central or Rock Island shall reimburse City for the actual cost to it for such repairs. City shall reimburse Central or Rock Island for the cost of any repairs to Central or Rock Island property caused by City's operations hereunder or by Expressway traffic. All costs of protecting and maintaining Central and Rock Island traffic during the ordinary maintenance or repair of the structure shall be borne by City.

Section 13. At project expense, Central and Rock Island symbols, emblems or names, as shown in the plans and specifications, will be displayed on the railroad bridge structures, in the form of either a sign, plaque, medallion or an inscription painted directly upon the overhead girders thereof, providing said identifying mark of Central or Rock Island is sufficiently small to serve for informational purposes rather than for advertisement. Such identifying mark of Central and Rock Island shall conform with the provisions of Section 21 of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 21-10", entitled "Elimination of Hazards of Railway-Highway Crossings", dated October 3, 1958, and subsequent amendments thereto.

Central and Rock Island and City further agree not to erect or grant permission to others to erect any advertising signs on Central or Rock Island porperty within the limits of this improvement.

Section 14. It is hereby mutually agreed that, upon completion of all of the work provided for in this agreement, and after payment of all bills by City to Central and Rock Island for outstanding claims, City may assign to the State of Illinois, all rights and obligations obtained and assumed by City under this agreement, to maintain, repair and renew such structures built under this agreement for the maintenance, repair and renewal of which City is liable.

Section 15. This agreement shall not be binding upon the parties hereto until the Illinois Commerce Commission has entered an order, approving the same and authorizing the work herein described to be done under the terms herein set forth.

Section 16. This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, the parties hereto have caused this agreement to be executed by their proper officers thereunto duly authorized.

[Signature and acknowledgment form omitted]

After City and Bureau of Public Roads have examined, audited and approved final bill, City shall reimburse Railroad for the retained percentage, less the deduction of any item (or items) of expense found by City or the Bureau of Public Roads, to be improper for reimbursement by City.

The sum of ..... as set forth in Exhibit "B" has been computed on the basis of the cost of materials and labor rates effective as of date of said estimate.

The rate of pay for all Railroad employees used in connection with this project shall be the rate paid these employees when engaged in like work on the Railroad and as provided for by the effective collective bargaining agreements negotiated under the Railway Labor Act.

For the cost of any work done by Railroad, in addition to the work described in the Exhibit "B", made necessary by changes in the plans approved by the parties hereto, pursuant to the provisions of Section 6 hereof, or any emergency work necessary to safeguard and maintain any operations of Railroad, or for any other reason, caused by the construction of this improvement, reimbursement shall be made to Railroad by City for such cost at the same rate for labor and materials as for the work described in Exhibit "B" and as listed in Exhibit "B" subject to escalator provisions of this Section, and Railroad shall furnish to City a detailed statement (in sets of ten (10)) monthly to be audited by City and the Bureau of Public Roads as provided hereinafter in this Section.

Railroad shall furnish City a statement of the actual labor performed on this project in the form and manner as may be required by City and it shall conform to the provisions of "Policy and Procedure Memorandum 30-3", as amended.

The records of Railroad substantiating the cost and expense shown on detailed statements shall be kept available and in such order that an audit can be readily made by City and the Bureau of Public Roads.

It is further understood that if, as of the time the work is performed by Railroad, the cost of such materials has increased over the cost of such materials as of the date of the aforesaid estimate or the labor rates which are required to be paid, and are paid in the performance of said work, are in excess of the labor rates required to be paid by Railroad as of the date of the aforesaid estimate, as shown thereon then, in that event, the sum of the aforesaid estimate shall be increased by an amount or amounts as represented by the increase of such cost of materials and such rates of labor; provided, however, that the increase in the cost of material and of labor shall not have been caused by any unreasonable delay of Railroad in the performance of its work hereunder.

In the event of any anticipated increase in cost due to increased labor rates or increased material costs, or due to changes in the plans, Railroad shall submit a revised estimate to City for approval prior to the commencement of the work involved. City shall promptly approve such revised estimate if it complies with the provisions of this Section. In case of emergency work, referred to in this Section, a revised estimate shall be prepared by Railroad and submitted to City promptly after such work has been done.

Section 10. A. City agrees to direct its contractor (or contractors) that the safety and continuity of operations of Railroad traffic shall be of first importance and shall at all times be protected and safeguarded. City shall require its contractor (or contractors) as regards any and all necessary falsework, bracing and forms or other temporary obstruction, to provide a minmum horizontal clearance of eight feet (8') from the center line of the nearest track and to conduct his or otheir operations upon Railroad right of way in full compliance with the rules, regulations and requirements of Railroad.

B. City shall require its contractor (or contractors) to give written notice to Railroad in care of District Engineer of Railroad, Room 520, Union Station, Chicago, Illinois, at least 72 hours in advance of the time the contractor (or contractors) intends to start any work on Railroad right of way.

Whenever such work, in the opinion of Railroad's Chief Engineer or his duly authorized representative, may affect the safety of trains and the continuity of Railroad operations, the method of doing such work shall first be submitted to Railroad's Chief Engineer for his approval, which, shall not be unreasonably withheld or delayed and without which the work shall not be commenced or prosecuted. The approval of Railroad's Chief Engineer shall not be considered as a release from responsibility or liability for any damage which Railroad may suffer, or for which they may be held liable by the acts of the contractor or those of his subcontractors or his or their employees.

C. In the event that Railroad's Chief Engineer shall deem any of the work or operations of City or City's contractors hazardous to Railroad operations, City shall suspend or cause its contractor (or contractors) to suspend such work until reasonably remedial measures, satisfactory to Railroad's Chief Engineer or his duly authorized representative, are taken.

D. Railroad shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this agreement. The cost of providing such inspection together with preliminary engineering costs and engineering costs during construction, which is estimated to be ..... as shown in Exhibit "B", shall be reimbursed to Railroad as provided in Section 9 of this agreement.

Section 11. Insurance—before the commencement of any work under this agreement, City shall require its contractor (or contractors) to procure on his own behalf Public Liability and Property Damage Insurance and also to procure insurance in accordance with Bureau of Public Roads "Policy and Procedure Memorandum 20-12", dated March 5, 1959, and by reference made a part hereof, which will protect and save harmless Railroad and City, as stated therein. Limits of liability of both said contratcors' protective insurance and said railroad protective insurance shall be $250,000.00 for each individual and $1,000,000.00 for each occurrence with respect to bodily injury or death; and $250,000.00 for each occurrence with an aggregate of $1,000,000.00 for the term of the policies with respect to property damage. Such insurance shall be with a company or companies licensed by the State of Illinois, and shall remain in full force and effect during the period of construction and until completion and acceptance of the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

Section 12. City shall require its contractor (or contractors) upon final completion of the work of such contractor (or contractors) to remove from within the limits of the right of way of Railroad all machinery, equipment, surplus materials, falsework, rubbish or temporary buildings of such contractor (or contractors) and leave such right of way in a condition satisfactory to Railroad.

Section 13. After the construction of the railroad bridge structure has been completed, Railroad shall, at its own cost and expense, maintain, repair, and renew, or cause the same to be done: (1) all

track facilities, including ballast; (2) all other Railroad facilities constructed or changed by it under the terms of this agreement. Prior to performing any maintenance operations which might infringe on Expressway clearances, Railroad shall first obtain permission from City to enter upon the Expressway right of way for this purpose. City shall, at its own cost and expense, maintain, repair, and renew, or cause the same to be done, the entire railroad bridge structure, including the waterproofing thereon. Whenever access to Railroad's right of way becomes necessary in connection with any maintenance to be performed by City hereunder to the railroad bridge structure, City shall have the right to go upon Railroad's property for such purposes but shall obtain Railroad's permission before entering upon Railroad's right of way to perform such maintenance. Such permission by Railroad shall not be unreasonably withheld. In the event of damage to the structure resulting from the operations of Railroad, City and Railroad shall make the repairs necessary to restore the same substantially to its former condition, and Railroad shall reimburse City for the actual cost of City of such repairs. City shall reimburse Railroad for the cost of any repairs to Railroad's property caused by City's operations hereunder or by Expressway traffic. All cost of protecting and maintaining railroad traffic during the ordinary maintenance or repair of the structure by City shall be borne by City.

Section 14. At project expense, Railroad's sumbol, emblem or name, as shown in the plans and specifications, will be displayed on the railroad bridge structure, in the form of either a sign, plaque, medallion or any inscription painted directly upon the overhead girders thereof, providing said identifying mark of Railroad is sufficiently small to serve for information purposes rather than for advertisement. Such identifying mark of Railroad shall conform with the Provisions of Section 21 of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 21-10", entitled "Elimination of Hazards of Railway-Highway Crossings", dated October 3, 1958, and subsequent amendments thereto.

Railroad and City further agree not to erect or grant permission to others to erect any advertising signs on Railroad property within the limits of this improvement.

Section 15. It is hereby mutually agreed that, upon completion of all of the work provided for in this agreement, and after payment of all bills by City to Railroad for outstanding claims, City may assign to the State of Illinois, all rights and obligations obtained and assumed by City under this agreement, to maintain such structures built under this agreement for the maintenance of which City is liable.

Section 16. This agreement shall not be binding upon the parties hereto until the Illinois Commerce Commission has entered an order, approving the same and authorizing the work herein described to be done under the terms herein set forth.

Section 17. This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

In Witness Whereof, the parties hereto have caused this agreement to be executed by their proper officers thereunto duly authorized as of the day and year first above written.

A shut-off gate or gates, reservoir or reservoirs of sufficient capacity to store not less than one day's supply of water; receiving tank, or tanks, booster or other pumps, slow-acting valves and such other appliances or devices as may be required by said Commissioner of Water and Sewers for the purpose of increasing, decreasing, and otherwise controlling the water supply furnished and taken hereunder, said equipment and appliances to be of such type, size and design as shall be satisfactory to and approved by said Commissioner of Water and Sewers, and the entire installation thereof shall be under the direction of and performed in a manner satisfactory to and approved by said Commissioner of Water and Sewers. 13. The water supply furnished and taken hereunder shall be drawn by the Village at an even rate of flow throughout twenty-four (24) hours of each day during the period from October 1 of each year to May 15 of each succeeding year and at an even rate of flow throughout twenty (20) hours from 10:00 P.M. of each day to 6:00 P.M. of each succeeding day during the period from May 15th to October 1 of each year.

It is hereby agreed that the Commissioner of Water and Sewers of the City and his authorized representatives shall have access to and the right to adjust and control valves and meters in order to limit the flow of water as herein provided and for the purpose of meeting any and all emergencies and necessitous requirements.

14. The Village agrees to comply with any and all sanitary regulations of the City and the present and future rules, regulations and instructions of the Department of Water and Sewers of the City applicable to cross-connections and dual water supplies as are in force in the City of Chicago Water System. The Village further agrees that the duly authorized engineers and inspectors of the City, in collaboration with the representatives of the Village, shall be allowed to make inspections and require tests for tightness of the piping of the water works installations, and of all plants or other buidings of water users within the territorial limits of the Village, and the Village further agrees to make such changes in its piping and to eliminate such cross-connections or other connections as in the judgment of the Commissioner of Water and Sewers of the City are necessary. The failure, neglect or refusal on the part of the Village to make promptly and properly such changes in its piping, to maintain tightness, or to eliminate undesirable connections upon notice in writing so to do from said Commissioner of Water and Sewers, shall furnish sufficient grounds for the City to shut off the water and discontinue the service hereunder until charges and corrections in said piping or connections required by the City are made by the Village.

15. The Village agrees to prevent excessive use and waste of water.

16. The Village agrees to appropriate annually sufficient money or so much thereof, as may be necessary, to provide sufficient funds for the payment of the water furnished by the City hereunder. All proposed water works improvements, which must be approved by the Commissioner of Water and Sewers of the City, shall be disinfected in accordance with the requirements of the Department of Water and Sewers of the City; said water works improvements shall not be placed into service until approved as to sanitary quality by the City.

19. The City may adopt any protective or health measures it deems advisable or desirable for the benefit of its water consumers, such as the fluoridation of its water, in any manner that the Commissioner of Water and Sewers of the City shall see fit.

20. The Village agrees to notify the Commissioner of Water and Sewers of the City as promptly as possible of all emergency and other conditions which may directly or indirectly affect the quality of the water received hereunder and the City's water supply and further agrees that the duly authorized Engineers and Inspectors of the City shall be allowed to make inspections and required tests of the quality of the water supply as received hereunder, as well as the quality of the water within the Village distribution system.

21. The Village agrees not to resell or permit any water furnished hereunder to be used to supply any other municipality or any consumer of water located or residing outside the territorial limits of the Village, except if and when it should be specifically authorized so to do by the City Council of the City.

22. The Village agrees to use City water exclusively during the period of this contract.

23. The Village further agrees not to sell, lease or give any interest in or right or privilege to utilize its water supply main or mains to any other municipality or any consumer of water whose premises are located outside the territorial limits of the Village, and further agrees not to permit any connection to be made to its water supply main or mains, except to supply consumers within the territorial limts of the Village, without first securing the consent in writing of the City Council of the City so to do.

24. At the end of each calendar year during the term of this contract and not later than January 31st of each year, the Village agrees to submit to the Commissioner of Water and Sewers of the City a report in writing showing in cubic feet or gallons the amount of water furnished the Village and the amount in quantity and charges billed by it to consumers during the preceding year and to furnish such other information regarding billing, collections and delinquencies as may be requested from time to time by said Commissioner of Water and Sewers.

26. To secure prompt payment of the water bills, the City shall have the right at any time to require the Village to pay in advance a sum of money estimated by the Commissioner of Water and Sewers of the City to be equal to the cost of water required by the Village for a period of ninety (90) days at the then prevailing metered rate, which said advance payment the Village hereby agrees to make upon demand.

27. The City shall not be responsible in damages for any failure to supply water or for interruption of the water supply furnished hereunder. The Village agrees to save and keep harmless the City from all damage to real and personal property occasioned or caused by the making of the water connection or connections herein referred to or caused by the furnishing of water hereunder, and shall also keep and save harmless the City from all damage of any kind, nature and description which may arise as the result of the making of this agreement.

28. The City reserves the right to its Commissioner of Water and Sewers to decide all questions arising as to the proper performance of the contract.

29. If the Village shall refuse, neglect or fail to pay promptly the water bills rendered for the water supplied it hereunder within the time or times prescribed by the ordinances of the City, or if the Village shall fail to comply with or perform any of the conditions or obligations on its part to be complied with or to be performed hereunder, and if after such failure the City shall deliver at the Village Hall of the Village of Bridgeview, addressed to the President of the Board of Trustees of the Village of Bridgeview a notice in writing of its intention to shut off the supply at the expiration of five (5) days after the giving of such notice, and to terminate this contract unless within such five (5) days the Village of Bridgeview shall make good such failure. The shutting-off of the supply of water for any such cause shall not release the Village from its obligation to make payments of any amount or amounts due or to become due in accordance with the terms hereof.

30. No assignment or transfer of this agreement shall be made by the Village of Bridgeview.

31. The Village hereby waives any defenses it may have by virtue of any governmental function it exercises in any action brought at law or equity under the terms of this contract.

32. No officer, official or agent of the City has the power to amend, modify or alter this agreement or waive any of its conditions or to bind the City by making any promise or representation not contained herein.

33. The authority of the officials of the City to execute this agreement is evidenced by the authority of the City Council of the City of Chicago given on the .....day of .....A.D. 19....., and published in the Journal of Proceedings of the City Council for said date on pages ..... thereof.

34. The authority of the officials of the Village of Bridgeview, Illinois, to execute this agreement is evidenced by the resolution passed by the President and Board of Trustees of the Village of Bridgeview, Illinois, at a regular meeting of said Board of Trustees duly held on the.....day of .....A.D. 19.....

35. This agreement is subject to cancellation by the City of Chicago in the event the Supreme Court of the United States of America or any other court of competent jurisdiction decrees that the City of Chicago has no right to contract for, sell, disperse, distribute or limit the amount of water the City may use for domestic pumpage or otherwise places a burden on the City in connection with the withdrawal of water from Lake Michigan, or otherwise dispose of water from Lake Michigan to any municipality or user residing outside the limits of the City of Chicago.

Part II

Terms and Conditions.

Article I—The Advance

Sec. 101. *Use of Certain Terms.* Except where the context clearly indicates otherwise, the following terms, as used in this Contract, shall have the meaning ascribed to them in this Section:

(a) The term "Administrator" means the Housing and Home Finance Administrator, Housing and Home Finance Agency, or any person who at the time may be acting in the capacity or authorized to perform the functions of the Administrator, or any authorized representative thereof, or any other person otherwise authorized to perform functions required to be performed hereunder by the Administrator as that term is used in this Contract.

(b) The term "State" means any State, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or posession of the United States.

Sec. 102. *Government Payments on Account of Advance.* The Government will make payments on account of the Advance, from time to time as such payments are needed for the purposes hereof, provided the Local Public Agency, prior to each such payment, shall have:

(a) Filed with the Administrator its requisition therefor and its estimate of cash needs (on a form or forms which shall be prescribed by the Administrator).

(b) Filed with the Administrator such opinions of local counsel with respect to the status of litigation and the legality of proposed undertakings, and such certifications with respect to other matters, pertaining to the project planning and the Project, as the Administrator may reasonably require in connection with such requisition and estimate of cash needs.

Sec. 103. *Conditions Relative to Advance Payments by Government.* Notwithstanding any other provisions of this Contract, the Government may elect not to make a payment on account of the Advance:

(a) If there shall not have been deposited in an appropriate bank account such funds which, together with the amount of the Advance set forth in Part I, Section 2, hereof, will then aggregate the estimated cost of the project planning;

(b) If the Local Public Agency shall have made any misrepresentation of a material nature in its application for the Advance, or any supplement to or amendment of said application, or in this Contract, or in or with respect to any document in connection therewith or pursuant hereto furnished by it to the Government relative to the project planning or the Project;

(d) If the status of the workable program for community improvement referred to in Section 101(c) of Title I, of the general plan for the development of the locality as a whole in which the Urban Renewal Area is situated, or of the relocation proposals for the Urban Renewal Area is not then adequate for the timely completion of the project planning or the undertaking of the Project;

(e) If the project planning has been or is to be undertaken and accomplished otherwise than in accordance with applicable law and this Contract;

(f) If, after having furnished to the Administrator any data concerning proposed actions when requested pursuant to Section 406 hereof, the Local Public Agency shall have proceeded further with respect thereto without having been advised by the Administrator that the Government has no objection to its so proceeding (it being the purpose of this provision, and of said Section 406, to insure that the Local Public Agency shall not take any step which might, in the opinion of the Administrator, violate applicable Federal laws or this Contract, and to eliminate thereby the possibility that the Local Public Agency will be responsible for a violation which would render it impossible for the Government to make the Advance or which might otherwise result in a delay in the undertaking or timely completion of the project planning);

(g) If the Local Public Agency, in undertaking and carrying out the project planning, shall incur costs or obligations not in conformity with the Survey and Planning Budget or not chargeable to the Project; or

(h) If the Local Public Agency shall be in default under this Contract.

Sec. 104. *Suspension or Termination of Government's Obligations.* If the Local Public Agency unduly delays the commencement or carrying out of the project planning, fails to comply with any of the provisions hereof, or abandons or before completion finally discontinues the project planning; or if, by reason of any of the events set forth in subsections (a) to (h), inclusive, of Section 103 hereof, or for any other reason, the commencement, prosecution, or timely completion by the Local Public Agency of the project planning or its undertaking of the Project is rendered improbable, unfeasible, impossible, or illegal, the government acting by or through the Administrator, may, by written notice to the Local Public Agency, suspend any or all of the Government's obligations under this Contract until such time as the condition or situation resulting in such suspension has ceased or been corrected or may terminate any or all of the Government's obligations under this Contract.

Article II—Books of Accounts, Bank Account, and Budget

Sec. 201. *Survey and Planning Accounts and Bank Account.*

(a) The Local Public Agency shall establish and maintain for the Project separate books of accounts in conformity with requirements established by the Administrator, such books of accounts being herein referred to as the "Survey and Planning Accounts".

(b) The Local Public Agency shall record in the Survey and Planning Accounts all Advance payments received by it from the Government pursuant to this Contract and all other funds, including loans made by the Local Public Agency, contributions, donations, or grants provided for, accruing to, or otherwise received for the purpose of carrying out the project planning. Such funds shall be promptly deposited in an appropriate account in a bank which is a member of the Federal Deposit Insurance Corporation.

(c) All costs charged to the Project shall be supported by properly executed documents evidencing in detail the nature and propriety of the charges. These and other accounting documents pertaining in whole or in part to the Project shall be clearly identified, readily accessible, and, to the extent feasible, kept separate and apart from all other such documents.

Sec. 202. *Establishment and Revision of Survey and Planning Budget.*
